Botha Speech Backs 4 Russians Concept of Reform Abducted

PORT ELIZABETH, South Af-nica — President Pieter W. Botha of South Africa said Monday that he was committed to political reform. But he rejected the idea of votes for

Mr. Botha also attacked foreign pressure for faster political changes following riots in the nonwhite townships.

His remarks came after advertisements were published by prom-inent South African business leaders appealing for negotiations on sharing power with blacks.

Mr. Botha said at the Cape Province congress of his ruling National Party that it was outgrowing what he called negative aspects of apartheid, South Africa's system of racial segregation.

His congress speeches over the pasi two months have been watched closely amid intense domestic and foreign pressure for change to give a direct political voice to the country's voteless black majority.

Mr. Botha criticized foreign pressure for faster reform, but added: "I am the first to concede that the process of adjustment and

change is still far from completion. "The history of the Afrikaner and other language groups is characterized by a struggle against domination and today we are continuing this struggle for freedom by means of steps of reform, freedom for ourselves and for everyone who by fire-raising, stone-throwing

After the first National Party congress in Durban, Natal, last month, the South African currency plunged on world markets and the country's economic crisis deepener when Mr. Botha's speech failed to meet international expectations.

But on Sept 11 in Bloemfontein. Orange Free State, he announced plans to restore South African citizenship to millions of blacks made foreigners by the creation of nomi-

Diplomats Seized Near Embassy In 2 Operations

United Press International BEIRUT - Gunmen kidnapped four Soviet diplomats in two opera-tions in West Beirut on Monday, witnesses and officials said.

The four men were abducted from two Soviet Embassy cars. both of which were found abandoned later within several blocks of

Alexander Soldatov, the deputy to the Soviet ambassador, informed the Lebanese Foreign Ministry that four members of the Soviet mission were abducted in two separate incidents near the Russian Embassy, diplomatic sources said.

The Christian Voice of Lebanon radio named three of the Russians

The abductors took Arkady Katokov and the embassy doctor from the first car and Oleg Spirin, their actions during rioting in black an attaché, and Valery Korney, a second secretary, from the second car," the broadcast said. The doctor was not identified.

The kidnappings were believed to be the first involving Soviet officials in Beirut

The identity of the kidnappers or Mr. Botha outlined a future path their motives were not immediately was linked to Syrian-backed offensive against Moslem fundamentalists in the northern Lebanese port city of Tripoli.

"It is possible," a Lebanese diplomatic source said, "that the kidnappers want the Soviet Union to pressure Syria to stop its assistance to the leftist and Communist militias of north Lebanon."

The fundamentalist Islamic Jihad organization threatened Saturday to attack Syrian and Lebanese leftist militia targets in retaliation.

A witness, who demanded anonymity for security reasons, said he watched the first kidnapping from across the street when the the two occupants of the Soviet Embassy car were dragged out at gunpoint.

"It was about 2 P.M. when the kidnapping occurred," the witness said. "I suddenly saw a blue Peugeot car intercept the Soviet Embassy Honda. Four of the five gunmen from the Peugeot got out and surrounded the Soviet Embassy car. One of them went to the driver's side and demanded he open the

"When the driver refused, he started pounding the window with the wooden butt of his AK-47. The window shattered and the gunman was able to open the door.

"The men inside the Soviet Embassy car looked foreign. One was blonde. Both seemed between 30 to 40 years old. They did not put up a fight, although several shots were fired by the gunmen in the air."

A police spokesman said the embassy car, a beige Honda, was found abandoned later a few blocks away.

Details of the abduction of the other two Soviet officials were not immediately available.

Moslem militia sources said they had been contacted by the Soviet Embassy to hunt for the missing diplomats and their security units were following up the matter.

■ Silence on Meeting

There was no further word Monday regarding a news conference at which kidnapped Westerners in Lebanon were to be presented. Reuters reported from Beirut. Callers saying they represented Islamic Jihad said earlier that a meeting was being organized.

Reagan to Meet 6 Major Allies Before Summit With Gorbachev

By Bernard Weinraub New York Times Service

THE UNIVERSITIES JORDANS

WASHINGTON - President Ronald Reagan plans to meet later this month with the leaders of six major industrialized nations to discuss his summit meeting in November with the Soviet leader, Mikhail S. Gorbachev, the White House announced Monday.

Those invited to the New York meeting were the leaders of Britain, France, West Germany, Canada, Italy and Japan.

Edward P. Djerejian, a White House spokesman, said that the allied talks will focus on arms control as well as East-West economic and political questions. The meeting will take place Oct. 23 and 24 while Mr. Reagan and the other leaders are in New York to attend ceremonies commemorating the 40th anni-

versary of the United Nations. "The presence of the Western leaders at the United Nations in October provides a timely opportunity for such a working session," said Mr. Djerejian. The spokesman said that the White House was "awaiting acceptances from all the

kets, the strong dollar, rapid technological change and ever-shorter product life cycles - is questioning their elders' faith in the omnipotent согрогацов. "What we're really talking about is the restructuring of the American economy." said Jeffrey R. Williams, an associate professor of

industrial administration at Carnegie-Mellon University, in Pittsburgh. Some management experts and economists believe that the disintegration of large corporations will substantially improve the competitive-

ness of the United States in world markets. "The American economy is going to operate more flexibly, and, as a result, we're going to be more competitive," said Michael J. Piore, a professor of economics at the Massachusetts astitute of Technology.

Others, such as Robert B. Reich, a professor (Continued on Page 13, Col. 5)

Captain Criticized Texas Controller Before Fatal Crash

United Press International

WASHINGTON — The captain of a Delta Airlines jet that crashed during a thunderstorm near the Dallas-Fort Worth airport, killing 136 people, criticized the air traffic controller handling the flight for "lack of experience," a transcript of the cockpit recordings showed Monday.

Captain Edward Connors, recorded on the aircraft 18 minutes before the crash, was heard saying of the unidentified air traffic controller: "He's sleeping. Get him out of bed." Moments later the captain said: "Getting kind of hot in the oven with this controller. See, that's what the lack of experience does."

Last week, an air controller at Washington's National Airport was placed on administrative leave after a large passenger jet had to abort its takeoff to avoid a helicopter crossing the runway.

UN Health Organization to Prepare Worldwide Strategy to Combat AIDS

New York Times Service

GENEVA - Officials at the World Health Organization said they have won the medical and fiworldwide strategy for combating drome, or AIDS.

Dr. Fakhry A. Assaad, chief of the organization's division of communicable diseases, said the Geneva-based organization was about to prepare a program to coordinate research and information-gathering. He said officials hoped to have the outlines of the program set by the end of this year.

The entry of the World Health Organization into the battle against AIDS could provide a crucial element that has been lacking until now: a centralized program for coordinating research now being carried out in Europe and the United States, as well as a central repository for analyzing diverse data and information on the incurable dis-

The outlines of the program emerged at a two-day conference here last week that brought together scientists from the United States. Britain, West Germany, France and Australia who are working with the health organization to develop a strategy to light the disease. More than 15,000 people are afflicted with the disease worldwide.

"We are hoping to extend this network of collaborating medical centers, gathering information and its dispersal to our 166 member countries," Dr. Assaad said, "We will look at the problem from a purely epidemiological point of view and provide guidelines that will be up to individual countries to 43 Sudanese Die in Desert carry out."

Although the scientists concluded that the multiple strains of the drivers have found the bodies of 43 AIDS virus made finding a cure a Sudanese who apparently died of "long-term process." Police Shootings, Riots Raise Disturbing Questions in U.K.

By Jo Thomas New York Times Service

LONDON - Twice in five weeks the traditionally unarmed British police have shot an innocent member of a family during a raid on a house in search of someone else. Both shootings were described by the police as tragic acridenis. Both touched off mob violence.

The shootings, now being investigated by the police, have raised serious questions among Britons about police training, weapons and procedures. The disturbances. which occurred in communities that were scarred by rioting four years ago and where there are many ethnic groups, have raised fundamental questions about what the British can or ought to do to bring peace to neighborhoods that residents describe as tinderboxes of unemployment and despair.

In Birmingham in August, John Shorthouse, a 5-year-old white child, was shot to death in his bed by policemen who broke into his family's apartment to search for his father in connection with an armed robbery. The police said the gun went off accidentally.

Hours later, a crowd wrecked two police cars and sent a constable to the hospital with head injuries. Two weeks later, in the Birmingham neighborhood of Handsworth. two days of riots followed a confrontation between onlookers and

police said it was an accident. A born in Britain,

mob tried to burn down the police station, and a major riot ensued. Although those involved in the total population, but they are con-violence in Birmingham and Brix- centrated in the cities, where unemton were whites, blacks and Asians, ployment and disadvantage are the the question of race and racism worst. WORLD BRIEFS Punjab Voting Raises Hopes for Peace

Victory of Akali Dal Perceived as Setback for Extremists

By Steven R. Weisman New York Times Service

NEW DELHI — A successful and peaceful election in the troubled state of Punjab last week has raised new hopes that India can the voting also shows that the task the Akali Dal, which captured 73 of strictly secular basis. remains extremely difficult.

Because of the threat of more assassinations by Sikh terrorists, Prime Minister Rajiv Gandhi took an enormous risk in scheduling the election now.

5 NATO Allies Approve Copter Study

BRUSSELS (Reuters) — Five West European NATO nations have agreed to proceed with a feasibility study in their effort to produce a joint naval and tactical transport belicopter in the 1990s, an spokesman for the

North Atlantic Treaty Organization said Monday. National armaments directors of France, West Germany, Italy, the Netherlands and Britain signed a memorandum of understanding Friday for a 14-month feasibility and pre-definition study to develop the design of the helicopter, designated the NH-90, for the years 1994-2000.

A NATO statement said that about 700 medium-sized helicopters, weighing eight to nine tons, were expected to be produced in two versions, one to be carried on a NATO frigate currently being developed and the other for army transport.

Iraqis Report Attack on Kharg Island

BAGHDAD (Reuters) - Iraq said Monday that its warplanes had launched another attack on Iran's Kharg Island oil terminal in the Gulf and attacked a large naval target, the term usually applied to oil tankers

or large merchant ships. A military spokesman said that the "destructive" attack, the 17th since mid-August, was made "to keep the vital facility out of service so long as

MADRID (Reuters) - President Julio Maria Sanguinetti of Uruguay, in an interview published Monday, accused the European Community of being a major desta-

bilizing factor in Latin America. "The greatest threat to our young democracies is the commercial war industrial powers are waging against us," he said in an interview published in the Spanish newspaper El Pais. "The European Community today has a great destabilizing power over Latin Amer-

Philippines Reports Malaysian Attack ZAMBOANGA CITY, Philippines (AP) - Military police reported

Monday that four Malaysian gunboats and three helicopters attacked a Moslem community on a tiny southern Philippine island, killing several The constabulary regional command in Zamboanga City said "53 civilian residents were killed or believed taken hostage by Malaysian soldiers" in the attack Thursday on Maddanas Island in the Tawitawi area. Officials said they believed the attack was in retaliation for a

reported raid on Sept. 23 by suspected Filipino pirates in the Malaysian state of Sabah in which II persons were killed. The report said the gunboats and helicopters bombarded the island, which is 650 miles (about 1.000 kilometers) south of Manila, then sent ashore soldiers who allegedly looted and burned houses.

Spain to Expel Officials of Polisario

MADRID (Reuters) - Spain ordered Polisario Front representatives Monday to leave the country within three days as six fishermen seized by the guerrillas off Western Sahara arrived home.

"The government has taken a very serious view of the attack," Foreign Minister Francisco Fernández-Ordónez said on Spanish radio, "and has resolved to expel all members of the Polisario and to close their offices in Spain." The front said it had attacked the vessels by mistake, taking them for Moroccan navai boats, and warned Spain to keep its navy clear of the coast of Western Sahara, where the guerrillas seek an independent state.

Reagan Hints at New Post for Heckler

WASHINGTON (AP) - President Ronald Reagan said Monday he wanted to talk to Margaret M. Heckler, the secretary of health and human services, about something new he might like her to do, but denied he was going to dismiss her. She is the head of the government's largest

department. Mr. Reagan denied reports that his chief of staff, Donald T. Regan, had won presidential approval to remove Mrs. Heckler from the cabinet, But saying he would not dismiss her "does not mean I don't have something else that I would want her to do." he said.

At least 30 people in Benin have been killed in floods following two weeks of torrential rains that drove 200,000 people from their homes, the government said.

About 900,000 utility customers in the northeastern United States were still without electricity Monday, and officials said it could take a few more days to restore power after the burricane designated Gloria. The storm Friday is blamed for at least 16 deaths and \$47 million in damage

But when you use them to store business information – such as the addresses of your best clients, or stock items – something strange happens.

They tend to multiply. And unfortunately, when you need them most, some cards have a nasty habit of getting lost in the shuffle. Trying to analyse buying patterns with those scraps of paper is a lost cause.

It's time to change your game plan, with an IBM Personal Computer.

The IBM PC will bring a needed bit of order to your desk, by changing the way you work with information.

Imagine that a client calls with a question about charges for an order placed last month. How long is he put on hold while you rummage through piles of paper looking for answers?

With an IBM PC, you tap a few keys, and in seconds you have the numbers you need. What's more, they will be as precise, up-to-date and well organised as the input. That way your client avoids listening to background music while you search for data.

If you happen to be responsible for stock control, consider the IBM Personal Computer XT. Its tenmegabyte fixed disk can store information on 100,000 different products.

All those facts and figures (what's selling and what's simply sitting on the shelf, for example) reside inconspicuously inside the XT, until you need them.

Now, once the people in your office discover that the IBM PC has allowed you to toss all your file cards into the dustbin, everyone is going to want one.

So much the better. Because then you can connect them.

And send memos, exchange files, and just generally keep everyone up-to-date, electronically.

So throw away those bad cards and visit one of our dealers.

For further information write to IBM United Kingdom International Products Limited, West Cross House, 2 West Cross Way, Brentford, Middlesex TW8 9DY, England (Telex 27748).

ital equipment, was unchanged from the July level.

In another assessment, the National Association of Business Economists predicted Monday that the economy would grow an anemic 2.2 percent this year, rebounding only slightly to 2.7 percent In an even more ominous assess-

ment, the association said 52 percent of the 350 economists who responded to the latest survey believed that the country would be in a recession by the end of 1986. Kathleen Cooper, vice president

of the association, said the majority of economists felt that the federa government's huge budget delicits would derail the current recovery in the next 15 months. (AP. UPI)

3 Thieves in Guangzhou Are Sentenced to Death

United Press International

BEIJING - A court has sentenced three men to death in the southern city of Guangzhou after finding them guilty of auto theft, the official People's Daily reported.

The three men joined a "band of robbers" to steal seven cars and 22 beginning of 1983 to March 1985, the newspaper said Sunday.

Tripoli Raid

BEIRUT—The defense of Tripoli by Moslem fundamentalists appeared to weaken Monday as pro-Syrian militias reported significant advances on the third day of their assault on the northern Lebanese city.

The attackers said a 300-man force was besieging the heavily defended port area.

Spokesmen for two of the leftist militias said attacks began before dawn with artillery support from Syrian-held hills and penetrated defense lines at the city's southern

edge and in the northeast. Communications with Tripoli were cut for the second day and it was not possible to verify the reports. The militias had acknowledged during the first two days of fighting that they had failed to ad-

vance very far. Four Syrian-backed militias launched a drive against the Islamic group, the Unification, or Tawheed, movement, on Saturday after it rejected proposals for Syrian troops to enter and pacify the city. Challenging Syrian influence in Lebanon, the leader of Tawheed, Sheikh Saeed Shaaban, said Syria was preparing a massacre in Tripoli and his men would only disarm

when other militias did. Details of casualties have been hard to obtain since the assault began. Before that, more than 200 people were killed and 1,000 wounded in fighting that caused 400,000 people to flee Tripoli.

The Lebanese government ordered Monday the distribution of thousands of blankets and food rations among the refugees.

The pro-Syrian Arab Democrat-One indicator, contracts for cap- ic Party said its men broke through Tawheed defenses in the northeast early Monday. A spokesman in Beirut for the Syrian National Socialist Party said its men pushed forward in the south.

Sudan Asserts Rebel Leader Was **Behind Coup Bid**

KHARTOUM, Sudan - Colonel John Garang, leader of insurgent southerners in Sudan, was one of three men behind an attempted coup in Khartoum last week, Defense Minister Osman Abdullah Mohammed said Monday. He identified the other two as Yaagoub Ismail and Youssef Kouwa.

Colonel Garang is the leader of the Ethiopian-backed Sudanese People's Liberation Army that is fighting government troops in southern Sudan. Mr. Ismail is a dissident soldier-politician from the Fur tribe of western Sudan and Mr. Kouwa is from the Nuba tribe of southern Kordofan province.

The non-Arab Fur and Nuba are the largest tribal elements in the army. The coup attempt began with mutinies by two groups of soldiers motorcycles valued at more than in north Khartoum and nearby 470,000 yuan (\$158,000) from the Omdurman. At least 162 persons have been arrested in connection with the attempted coup.

School Desegregation in Boston: A Decadelong Social Experiment That Backfired

By Margot Hornblower
Washington Post Service

BOSTON — The metal detectors and police sharpshooters are long gone from South Boston High. These days, no one throws stones at black children who ride school buses into white neighborhoods.

More than a decade has passed since Boston's antibusing riots, and on the surface this city, booming with new skyscrapers and modern ideas, appears to have recovered from one of the ugliest school integration battles in

But 11 years after U.S. District Judge W. Arthur Garrity Ir. took control of the schools, charging that elected officials had deliberately operated a dual system, the nation's oldest school system is more racially segregated

Regardless of what busing has achieved elsewhere in the country, in Boston it is widely viewed by blacks and whites as a social experiment that backfired.

This month, Judge Garrity issued final orders in the case, turning over day-to-day operations to the nowintegrated Boston School Committee. But he left behind 415 orders, and a system still beset with problems.

School enrollment has fallen from 94,000 pupils to among northern cities subjected to court-ordered busing of despair," Mr. Flynn said, "The government provided all white, an overcrowded, dilapidated school that was now 73 percent minority.

During a decade of academic and administrative chaos, test scores plunged, the drop-out rate soared, 70 schools closed and more than 1,000 teachers were laid off. In 11 years, the system has had eight superintendents. While group. "The entrance of the judge was a good thing in that there has been slow improvement in the last three years, few of those who abandoned the system for parochial or Italian politicians who viewed it as theirs for patronage population, is still more than 70 percent white. suburban schools show signs of returning.

Mayor Raymond L. Flynn, who has five children in give blacks the same chance." parochial schools and one at an experimental public school, said, "Parents, black and white, took their kids out the judge imposed was disastrous" and "disruptive and of school, because they didn't see a future for public cataclysmic."

agree with Judge Garrity that, in 1974, Boston schools were in need of reform. School districts had been gerrymandered to separate the races. Of 150 elementary schools ical formula. in 1973, the court found that 62 were more than 96 percent white, and 32 were more than 85 percent black.

But when the city's all-white school committee refused to draw up a busing plan - a resistance unprecedented

city's insular neighborhoods, that it sparked a rebellion.

"The discrimination was stunning," said Ellen Guiney, different." head of City-wide Education Coalition, a local civic and theirs for their children, but who weren't willing to At South Boston High, the only school to be placed

However, Miss Guiney added. "In hindsight, the plan desegregation, Jerome Winegar, the court-installed princi-

Judge Garrity's plan paired South Boston, poor and Even the most unreconstructed busing critics had to Irish, with Roxbury, poor and black. Even communities that were relatively well-integrated were forced to bus their children across town, according to a strict mathemat-Boston was given little time to adjust to Judge Garrity's

orders, issued in June 1974 and imposed the following

"The way the whole thing was handled created a feeling

56,000, and a system that was 61 percent white in 1974 is —Judge Garrity brought in experts who devised a plan so no role for parents, black or white. The political process focal point for "Southie." as the neighborhood calls itse inflexible, and so indifferent to the sensitivities of the broke down. If there had been greater community and Now, only 300 of Southie's 1,500 high school-age studen parental dialogue, the results would have been much go there.

Some sociologists argue that the schools would have become majority black and Hispanic, even without busit wrested the school system away from the Irish and ing. However, the city as a whole, while it has lost

directly under court receivership in the history of school pal, stands in the marble lobby each morning as buses disgorge hundreds of black. Hispanic and Cambodian

"When I came here nine years ago, there were metal detectors, and 90 police officers in the halfs," to protect students from racial violence, Mr. Winegar said, "but I haven't heard a racial slur in six years."

The school, which serves mostly poor students from public housing projects, is 37 percent black, 31 percent white, 18 percent Hispanic and 14 percent Asian, he said.

Throughout the system, "sports and extracurricui activities went down the drain" after busing, said ! Foreman, public information director of schools. "Bo ton's teams were once class A. Now they're class E. Thplay Martha's Vineyard and Cuttyhunk," rural enclave Boston's public schools still remain a place for peop who cannot afford to go elsewhere. Sixty percent of i

pupils come from families on welfare. Three-quarters le-

in single-parent homes. "The cynicism and the injustice was that anyone wh had the money could get out of it," said William Bulge president of the Massachusetts Senate, who has taken the last of his nine children out of the public schools.

"The moral high ground," he said. "was taken by thos whose children were unaffected, the judge who lives i Wellesley, the Globe editors who live in Brookline an Lincoln, the court experts who live in Concord and Lea Before Judge Garrity's orders, South Boston High was ington," all wealthy suburbs outside the city.

By Marlise Simons New York Times Service

SAN SALVADOR -- Roberto d'Aubuisson, the standard-bearer of El Salvador's militant right, has stepped down as the head of his party, the Nationalist Republican

His resignation Sunday is said by many diplomats and politicians to be a tacit recognition that he has outlived his usefulness as party leader. They also say he has become a liability to his backers, including important sectors of the country's -military, businessmen and landowners.

The party has been weakened by internal squabbling, desertions, loss of funds and a crushing defeat in the March legislative elections But Mr. d'Aubuisson said his resignation would not end his role in Salvadoran politics. He told 800 delegates at the party's national

formed by the party soon. At the institute, he said, he plans "my experiences in Salvadoran politics" and, on "everything learned in Taiwan." Mr. d'Aubuisson took "courses m' political war-

convention Sunday that he would

fare" in Taiwan a decade ago, one of his aides said. only a year ago, was chosen unanimously its new president for a twoyear term. Mr. Cristiani studied business administration at Georgetown University in Washington, and has headed the powerful asso-

cotton growers. Like other landowners in the party, he lost large parts of his holdings to the agrarian redistribution program several years ago.

ciations of Salvadoran coffee and

The tall, soft-spoken and polished Mr. Cristiani seemed a sharp contrast to Mr. d'Aubuisson, small, fiery figure.

Although Mr. d'Aubuisson was cashiered for involvement in coup plots when he was a National Guard major with a long career in intelligence work, he made a comeback as the key figure in the socalled Broad National Front, which declared it would "save El Salvador from Communism,"

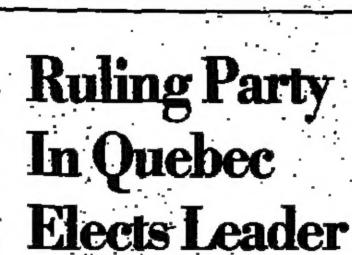

President José Napoleon Duarte has said the front was formed to carry out actions that the military themselves could not undertake. Foreign diplomats and critics have described the front as a network that fed names of "subversives" to military and paramilitary death squads to defend the interests of the country's well-to-do.

Once the front was converted into a political party, the Nationalist Republican Alliance, it grew rapidly and in three elections won close to 40 percent of the national vote. Last year, Mr. d'Aubuisson came close to winning El Salvador's presidential election, and he openly accused the United States of blocking his victory through "political maneuvers and funds."

U.S. diplomats have consistently linked Mr. d'Aubuisson to death squad activities, to the 1980 assassination of Archbishop Oscar Arnulfo Romero in San Salvador and the abortive conspiracy last year to kill the U.S. ambassador to El Salvador, Thomas R. Pickering, Mr. d'Aubuisson, who on several occasions has been refused a visa to enter the United States, has always denied the charges.

Office of El Al Is Bombed

The Associated Press . : AMSTERDAM — A small bomb exploded Monday at the of-fice of El Al, the Israeli national airline, causing little damage and no injuries, police said.

By Christopher S. Wren New York Times Service MONTREAL - Pierre-Marc Johnson, a political moderate who favors independence for Quebec only as a last resort; has been elected leader of the Parti Québécois.

He succeeded Premier Rene Lévesque, who has stepped down. Under Canada's parliamentary system, Mr. Johnson, as leader of the majority party, also is to succeed Mr. Lévesque as the premier of Quebec. He is to be sworn in this

Mr. Johnson, 39, is the son of a popular former premier, the late Daniel Johnson, and has been serving under Mr. Levesque as the province's justice minister. Although he did not have Mr. Levesque's endorsement in the tace for party leader, he was considered the front-runner.

In a departure from tradition, all dues-paying members of the Parti around the province. Monitors re- briefly as a physician. ported a heavy turnout.

With 99 percent of the ballots counted, Mr. Johnson had 56,658 votes, or nearly 59 percent of the

Celebrating the Art of Wine

By John Russell New York Times Service TEW YORK - "Wine: Celebration and Ceremony" at the Cooper-Hewitt Museum is a large, comy and convivial affair. How could it be otherwise, when the iconography of wine-making is a rich and ancient subject, hallowed since Greek and Roman times and in existence even earlier? Sculpture

of it. So have tapestries, glass, sil-ver, porcelain, photography, the Victorian centerpiece in silver and Persian miniature, the poster, the glass by John Samuel Hunt (1848), postcard, the bookbinder, the wall- or the noble British baluster goblet paper designer and the movie still. Our century has seen small masterpieces of commercial presentation such as the illustrated French the 1790s, an unwary sheep could book called "My Doctor, Wine" on drown in it and not be noticed till which Raoul Dufy lavished all pos- morning. sible care and affection in the

1930s. Artists of more recent date items have no less spectacular assoand printmaking have made much have designed wine labels, made ciations. There is an engraved glass drawings for illustrated histories of of 1785 that belonged to Catherine wine, and in general acted as the Great of Russia and bears her henchmen of a profession that has monogram. There is a flute - the served us as well in times of travail and stress as in times of euphoria. All this is spelled out at the Coo-

per-Hewitt, which draws not only upon its own labyrinthine collections but upon its neighbors, the Metropolitan Museum and the Morgan Library, and upon specialized museums the world over. (Even the corkscrew has its historian., Given the eligibility of almost any work of art in which grapes play a role, we should not be surprised at the range and variety of the show. No exhibition that includes both a photograph by Baron de Meyer of Nijinsky raising some grapes to his mouth in "L'Après-Midi d'un Faune" and a cartoon of "Moët et Chandon coming face to face with the widow Cliquot" can be called monotonous.

Some of the categories choose themselves. It is by right that the bottle, the decanter and the glass are there, together with the cooler, the coaster, the goblet, the cup, the chalice, the amphora, the rhyton, the kylix and the krater. The majestic cognac still and the no less majestic double-screw press - the one lent fom Cognac, in France, the other fom Epernay — remind us that the making of wine and spirits can be not merely "big business," in financial terms, but a hefty business in terms of technology. Even

glass and decanter, the aesthetic standard is often remarkably high. Later developments are not scanted, either, and the Swedish plastic goblet of the 1980s is given equal time with more genteel contriv-

At the top level, I doubt that we shall see many things finer in their

the monumental winepress illustrated in Diderot's Encyclopaedia does not outclass these two stately In every one of these categories the variety of what we see at the Cooper-Hewitt (through Oct. 13) is quite remarkable. It ranges from publicity postcards of distant date to champagne bottles (empty, alas) of a size that few of us will ever get to handle. In the domain of antiquities, of the decorative arts during the northern Renaissance, and of the great age of the undecorated

wine is treated in depth at the Cooper-Hewitt. Almost everything about the consumption of wine is looked into, also. The uses of the kind than the silver cup and cover chalice are pursued even to the foot of the Cross, where no less an artist ALEXANDRE SAVIN THE CASHMERE DESIGNER IN PARIS than Albrecht Durer shows the blood from Christ's wounds being collected in vessels of the kind that we see in a nearby showcase. Dürer's contemporary. Hans Burgkmair, likewise presses the analogy between wine and blood.

> A fifth-century Coptic tapestry points to the association of the fies me.' grape with continuity and felicity. The miracle at Cana, where Christ the Festival d'Automne, the perturned water into wine, is por- forming arts festival that runs trayed in an early 19th-century through December. Among her Swedish painted wall hanging, ballets performed: "Song" (1985). Hugh Johnson has lent a colored engraving, dated 1746, in which the Songs"; "Diversion of Angels" standard of weights and measures (1948): "Errand Into the Night" first promulgated in the reign of (1947); "Judith" (1980); and "Acts Henry VIII is copiously illustrated. of Light" (1981). In a word, this show tells us just about everything that we could rea- creations, Graham explained. "The somably want to know about the 'Song of Songs' is to me a song to

that dates from the early 18th century. As for the gigantic silver wine cistern that was made in England in Some of the more spectacular tall thin glass that goes very well with champagne - that bears the arms of Charles II of England. From a later day there are some

making of wine, the serving of wine, and the symbolism of wine.

What we miss, almost entirely, is what happens when people sit down and drink wine. Paintings on that theme might as well not exist, almost. There is an amusing colored engraving dated 1798 by that formidable English satirist, James Gillray. Called "The Loyal Toast," it shows us a group of men with glasses raised. But the wine looks like red ink, the toast itself is made fun of, and the least one can say of the men in question is that they

noisseurs of wine. One reason is, no doubt, that the Cooper-Hewitt is not a museum of painting. Another is that great tees in exhibitions of this kind.) than ourselves? Never!

would never make the grade as con-

Furthermore, many paintings of people drinking are hideous. Even those who prize Dutch and Flemish painting very highly indeed can remember some memorably dreary paintings of people who have had too much to drink

So it is for us to come away from the Cooper-Hewitt and act out the fantasies that will have come to us while there. We may not be able to afford the great Renaissance table ornaments, the English 18th-century silver or the engraved glasses that look their best as the wine is refracted in candlelight. But some Old Master engravings, a decent set of glasses, a decanter that will not bankrupt us and one or two other inspired but economical purchases will serve us almost as well. In fact paintings - whether about wine or we shall sympathize with, but not about anything else - are very ex- envy, the Guild Master's family in pensive to insure, even if they could Basel, in 1559, who appear in a be borrowed. O'Neill's 'Iceman': A Stirring Restaging

By Frank Rich

New York Times Service T EW YORK - Nothing glows when the lights rise on Harry Hope's waterfront gin-mill and flophouse in José Quintero's new production of "The Iceman Cometh." What comes dimly into view is a moldering, black-and-brown cave, barely discernible in a smudged, gray-green haze. The derelicts who populate Eugene O'Neill's play describe this squalid setting as "a morgue" and "a tury drama that runs from "The tomb." as "The End of the Line Lower Depths" to "Waiting for Cafe" and "The Bottom of the Sea Rathskeller."

As designed by Ben Edwards and lighted by Thomas R. Skelton at the Lunt-Fontanne Theater, Hope's saloon of 1912 looks as ghostly as those bottom-of-the-sea glimpses of the Titanic. But in "The ceman Cometh" the bodies of the inhabitants are still visible - still terrifyingly alive, twitching in the sill To see O'Neill's burns sprawled comatose across their sooty dive is to know one of the most harrowing images ever produced by the American theater.

For most plays, that image would be an ending. In "Iceman," it is only a beginning. O'Neill begins with a vision of existence at rock bottom and then, for nearly five hours (three intermissions included), just keeps plunging down, taking us and his characters past despair to utter hopelessness: we cannot go home until we understand that the only truth that exists in life is the truth that kills. The guide for this pitiless journey is a hardware salesman named Hickey a role that brought Jason Robards fame when he first played it. under Quintero's direction, in the 1956 Circle in the Square revival that helped restore O'Neill's thentarnished reputation. In the current staging, which originated at Washington's American National Theater. Robards has reunited with Quintero, and both men are in brilliant form. Along with some other

AMPLE IN CO.

The word "masterwork" is not invoked lightly. "The Iceman Cometh," which was written in 1939 and first produced in 1946, is equal to and perhaps more influential than "Long Day's Journey Into Night" and "A Moon for the Misbegotten." the two other towering plays at the end of O'Neill's career.

"Iceman" occupies a secure position on the continuum of 20th-cen-Godot:" seeing it now, one finds the seeds of contemporary American plays as diverse as "Who's Afraid of Virginia Woolf?" and "Glengarry Glen Ross" within its rat-infested corners.

If O'Neill's theatrical architecture can be ham-fisted and his language repetitious, his tragic vision remains undiminished by time. In 'Iceman." we see man's desperate need for sustaining illusions, even as the hollowness of those illusions. God included, is cruelly exposed.

The illusions are referred to as "pipe dreams" in the play's argot. During the 70-odd minutes that precede Hickey's arrival at Harry Hope's, we learn that the bar's alcohol-sotted inmates, a "Who's Who in Dipsomania" ranging from defrocked Harvard-educated lawyer to prostitutes who think of themselves as "tarts," all cling to some such pathetic self-delusion: they are all masters at rationalizing yesterday's defeats and perpetuating tomorrow's false hopes.

When the newly sobered-up Hickey appears, he vows to bring his old cronies peace and salvation from guilt by forcing them to put aside those lies for good - to face the fact that they never will graduate from the social ash heap. "Honesty is the best policy," Hickey proselytizes — not realizing that he, too, continues to cling to a pipe dream and that the destruction of that last illusion will biing no peace except that of the grave.

Like the characters in "Moon" and "Long Day's Journey" who share a bloodline to O'Neill's brother James, Hickey could have been written for Robards. In his three-piece suit and straw boater. with his flashing teeth and whorehouse bonhomie, the actor is the consummate salesman — a hardselling, evangelical drummer whose all-American vulgarity becomes a kind of charisma.

After that go-getting, fingersnapping self-assurance is shaken, Robards seems to be pouring decades of preparation (as indeed he is) into delineating Hickey's collapse. His chuckles (invariably punctuating the word happy) hang ghoulishly in the septic air; his eyes recede into deep, coal-black sockets; his feet shuffle under the weight of dread; his bray slurs and slides into an ashen croak. Once Robards reaches his marathon. self-immolating confessional of Act IV, he is the major-domo of the

charnel house. As he sweatily expanates his unspeakable, guilty secret - his hatred for his murdered wife - his Hickey seems to be repeatedly confronting his own pasty face in the mirror and recoiling in nauseated

disgust at the sight. It's hard to fathom how this perplays Larry Slade.

Martha Graham and the Fear of Paris

Metropolitan Museum Files Plans for Annex

New York Times Service NEW YORK - The Metropolitan Museum of Art has filed plans with the Landmarks Preservation Commission for a new \$35-million structure.

The addition, to house European sculpture and decorative arts, with temporary loan shows, is the final element in the museum's master building plan, outlined in 1970.

A Pre-Summit Pattern

Something of a pattern is being established as the Reagan-Gorbachev summit approaches: The Russians moan that the American position is unthinkable; many Americans, and Europeans, nod in agreement; the Reagan administration frets that the wily Gorbachev is making public relations hay; but then the Russians shuffle forward all the same.

This is the way it was when the Kremlin came back to the negotiating table after having walked out, when it eased off its hard-to-get pose and agreed to a summit, when it dropped its insistence on outlawing self-evidently unoutlawable research on defensive strategic weapons, and when it went beyond slogans and said it would be offering a new proposal at Geneva to reduce offensive arms.

From this account, we do not draw any hard conclusions. Things are moving, but one reason is that the Russians are retreating from unserious positions. Their strategy of playing to American public opinion eats at some Americans, but it is forcing the Russians to moderate their position in order to appear presentable in foreign eyes. The more the Russians seek to gain propaganda advantage, and to position themselves to put the blame on the Americans if the summit fails, the more moderate they have to become. This is the other side of the propaganda coin.

Still, it troubles the United States to see the Soviets trying to manipulate American opin-

ion. Hence Secretary of State George Shultz's insistence on Friday that the private talks at Geneva are the proper forum for the exploration of the new Soviet position. They are.

It is the annual visit of the Soviet foreign minister to the United Nations that has prompted this latest surge of public diplomacy. There may not be a comparable surge until the summit in November.

Careless optimism remains unwarranted. If the two sides stopped right now they would be far apart on the big arms control issues, not to speak of the other issues of regional disputes, human rights and ideology that Mr. Reagan also hopes to discuss. Nor does either side appear to have calculated the final price it is willing to pay for an arms agreement. The Russians have made some relatively easy choices. Neither the Russians nor the Americans have yet addressed the hard ones.

The notion is current in Washington that Mr. Gorbachev, having consolidated power, can do pretty much what he wants. That is almost certainly not so: He has removed only one man from the place where it counts -- the Politburo. It takes a large faith in President Reagan's bargaining talents, moreover, to believe that the Kremlin will reverse course and and up accepting his Strategic Defense Initiative in the form in which he continues to press it. The tough part has not even begun.

- THE WASHINGTON POST.

Can Pretoria Be Trusted?

As a classic French treatise warned in 1716. "Even the most dazzling diplomatic triumphs which have been gained by deception are based upon insecure foundations. They leave the defeated party with a sense of indignation, a desire to be revenged and a resentment that will always be a danger." In South Africa they have yet to learn that lesson.

In what seemed a dazzling triumph, the white regime in Pretoria broke its regional isolation in 1984 by signing a nonaggression pact with the Marxist leaders of its poor, black neighbor Mozambique. As brokered by the United States, the pact was a straightforward bargain: Mozambique would deny help to black exiles preparing attacks against South Africa, and South Africa would stop arming insurgents inside Mozambique.

Mozambique kept its word. South Africa did not. Besides encouraging the Mozambique rebellion (first instigated by Ian Smith's Rhodesia), the South African army has bombed and invaded Angola, another Marxist-led state whose territory it had promised to respect.

These aggressions are meant to express defiance of South Africa's foreign critics. Their real effect is to knock the last props from under President Reagan's claim that "constructive engagement" would moderate South Africa's conduct and racism. The main exhibits had been the pact with Mozambique and the cease-fire with Angola, through which Washington hoped to promote a still wider agreement for the independence of Namibia. South Africa admits the Mozambique be-

trayal and no longer blames the rebel actions on "an international web of bankers." But Pretoria says its violations of the agreement are "technical" and that acts like clearing a landing strip constitute "humanitarian" aid. In the captured diary of one rebel, that aid was listed as 26 tons of munitions.

President Samora Machel has astutely turned South Africa's duplicity to his country's advantage. His Marxism recently proved no impediment to a cordial visit to President Reagan, who assured him of America's "distress." Expressing gratitude for U.S. aid. Mr. Machel urged Americans to come to Mozam-

bique as "famine fighters" and investors. This turning represents a real gain for the Reagan administration. Relations with Mozambique had been cool, even hostile, since its chaotic struggle for independence from Portugal a decade ago, during which it turned to Moscow for weapons and diplomatic support. But when drought struck Mozambique in 1984, it became the largest recipient of U.S. food aid. It has now joined the International Monetary Fund and the World Bank and is

overcoming a reflexive hostility to the West. As for South Africa, it ought to reflect on the conclusion of that old French treatise: "The negotiator should recollect that he is likely for the rest of his life to be constantly engaged in diplomatic business, and that it is essential for him to establish a reputation for straight and honest dealing so that thereafter men may be ready to trust his word."

- THE NEW YORK TIMES.

Other Opinion

For a Broad-Ranging Summit

Soviet Foreign Minister Eduard Shevardnadze's visit to the United States seems to leave open the question of whether he was positioning his country for serious negotiations on nuclear arms reduction or only making more points in the Soviet propaganda campaign. It is obvious that there has been no significant movement at Geneva. Nuclear arms reduction is the most important issue that will be discussed [at next month's summit]. However, deepening understanding and coming to terms on as many issues as possible will contribute to that goal, whereas an all-ornothing approach locked tightly to arms reduction could doom the talks to failure.

- The Japan Times (Tokyo).

Hussein Returns to Try Again

King Hussein is in Washington again. Last time he was there, just four months ago, he impressed President Reagan with his determination to move forward, at long last, toward a negotiated settlement of the Palestinian question and of the future of the West Bank. The king has offered a four-stage scenario. First, a senior U.S. official should meet with a Jordanian-Palestinian delegation, whose Palestinian members would not be overtly identifiable as PLO representatives. The Americans were sufficiently impressed to be willing to envisage

stage one, provided they could be satisfied of the non-PLO credentials of the Palestinians who would attend this first meeting. [Prime Minister Margaret | Thatcher's agreement [to] receive a delegation containing two Palestinians is intended to strengthen the king's hand as he goes in to plead with Mr. Reagan to allow at least the first stage of the original scenario to go ahead. If it does not, the fear is that the opportunity presented by the Jordan-PLO rapprochement will soon be lost.

- The Times (London).

How Would Mexico City Cope?

Disasters, natural or man-made, seem to occur with such chilling frequency that the mind develops automatic defenses for coping. We reassure ourselves nervously: It was a once-in-a-lifetime thing; it's so far away; it couldn't happen here. But the devastating scale of earthquake destruction in and around Mexico City is a reminder that the worst can happen anywhere. We cannot cannot take anything for granted, it seems - not even the notion that we live on a stable surface.

As our hearts go out to the victims in Mexico. our heads cannot help but think about the vulnerability of that sprawling metropolis of 18 million (the world's largest city) to other disasters. How would Mexico City cope with an epidemic or a breakdown in social order? - The Milwaukee Journal.

Amiable Gorbachev, Invader of the West

By Dominique Moïsi

P ARIS — The pomp of Versailles; smiles from Mikhail Gorbachev's wife, Raisa Maximovna ... In a sage in Mr. Gorbachev's first official visit to the West since he took charge

of the Soviet Union in March. The French are flattered to be the general secretary's "first choice." They hope that the visit which starts tomorrow will redirect attention to a

Behind the smiles, basic Soviet foreign policy goals have not changed.

positive French international role and help to repair the negative image left by the Greenpeace affair.

For the Soviet Union, the trip to Paris in the month preceding the Geneva summit has propaganda value. It is meant to convey an image of openness, and the Kremlin's "new look," while adding credibility to Soviet arms reduction proposals.

From Paris Mr. Gorbachev doubtless intends to speak to Western opinon as a whole, and to put the United States on the defensive, by stressing - with the help of the media - an image contrast between Soviet good will and American rigidity.

Mr. Gorbachev's visit is awaited by the French with a mix of satisfaction, curiosity and skepticism that reflects the evolving international, domestic and cultural context within France. Satisfaction stems from the fact

that the Soviet Union has singled out France from the European pack — as if to demonstrate Soviet respect for French firmness on the Euromissile issue and approval for France's critical stance toward President Reagan's Strategic Defense Initiative. Paris is reviving a tradition of regu-

lar bilateral meetings that Soviet behavior in the late 1970s and early '80s (in Afghanistan and Poland, in perticular) and the French Socialists' need to prove their pro-Western orientation had interrupted. Soviet behavior has not improved either on human rights or in Afghanistan; one could in fact say that it has deteriorated. Still, once the West had won the Euromissile battle, resumption of East-West dialogue paved the way for a French return to dialogue.

Mr. Gorbachev's visit is also satisfying from the French point of view because it provides an opportunity to reaffirm the independence and originality of French foreign policy. More prosaically, Paris hopes that the visit will lead to an improved trade balance with the Soviet Union.

Mr. Gorbachev's visit excites curithat should be around for a long time. There is skepticism as well. No one

expects much in terms of concrete results from the visit. It is widely viewed as a mere observation round. albeit an important and useful one. In terms of French domestic politics, the Gorbachev visit is a chance for consensus-building. It satisfies the various political parties - with the exception of the extreme right and tends to serve President Mitter-

the general election next March. The domestic cultural climate, too. has evolved. Present attitudes toward the Soviet Union are a mixture of realism, cynicism and resignation. After decades of fascination with the revolutionary essence of the Soviet experiment, the French intelligentsia belatedly discovered the totalitarian nature of the Soviet system 10 years ago, with Alexander Solzhenitsyn's "Gulag" trilogy. Today the trend is toward banalization of Soviet

rand's plans for "cohabitation" after

"evil" and an overall cynicism. The intelligentsia seems to have exhausted its capacity for indignation. The reasons that justified criti-

cism of the Soviet Union are all still

up an established church.

present, but since they are not likely to disappear, indignation is slowly

giving way to resignation. Attitudes toward Poland illustrate this new mood. The unofficial compromise that has been reached there between an oppressive, self-censoring regime and a restless but self-contained society looks to many in France like a satisfactory and realistic outcome.

Mr. Gorbachev's trip to Paris

should not fool the West. Behind the smiles and a newly energetic style, basic Soviet foreign policy objectives have not changed. While it smiles at Western Europe, the Kremlin takes a tougher stance in the Eastern bloc and at home, and mixes seduction with toughness toward the United States, Mr. Gorbachev should be received politely, but exchanges should be firm and without illusions.

The writer, associate director of the Institut Français des Relations Internationales, contributed this comment to the International Herald Tribune.

A Simple Question for France to Raise

By Efrem Yankelevich

The writer, son-in-law of Andrei Sakharov, is a former member of the Soviet human rights movement.

N EWTON, Massachusetts — The last time Mikhail Gorbachev went abroad he was not yet the general secretary. Nevertheless the KGB felt obliged to do something to save him from a few potentially embarrassing moments. It certainly did not want to have Margaret Thatcher or some nasty journalist inquiring about the whereabouts of Andrei Sakharov and his wife. Yelena Bonner. On the eve of his arrival in London it released presumably two-month-old pictures of Dr. and Mrs. Sakharov. The pictures, taken by a hidden camera, were released on Dec. 15, 1984. through a West German newspaper, Bild.

Will the KGB let Mr. Gorbachev down now? Do not President François Mitterrand and the French public deserve at least 10 minutes of a videotape featuring the Sakharovs? Four such little tapes have been released to the West in the last 15 months. They have now become the only source of information on the Sakharovs. What if there is no videotape released by Oct. 2? This

would be bound to suggest a gloomy possibility that there is nobody to take pictures of. If there is a videotape, that will not be a consolation either, since it is becoming increasingly difficult to

last one, released through Bild in late July, showed Dr. Sakharov allegedly leaving a hospital on July 11 and reunited with his wife. However, so far there has been no confirmation of this claim. The last words from Gorki were Mrs. Bonner's postcard of July 4 in which she strongly indicated that she was alone. Our only hope is that Mr. Mitterrand will not forget

to ask Mr. Gorbachev a simple question: "How are the Sakharovs?" And that he will insist on an answer. In June 1984 Mr. Mitterrand accepted assurances by the Soviet news agency Tass that the Sakharovs were

alive and well, and he went to Moscow despite an outcry in the French press. (The outcry was justified, as we know now.) He shocked Konstantin Chemenko by mentioning Dr. Sakharov's name in the Kremlin dining room. It took courage. But courage alone does not produce results unless there is consistency.

In May 1985 Prime Minister Laurent Fabius launched a new French human rights policy by declaring a freeze on French investments in South Africa. I wonder if similar measures were considered in regard to the Soviet Union. I hope that French human rights policy is not just a search for easy targets. accept the authenticity of Soviet-supplied tapes. The

East-West Arms Control and Beyond

ENEVA - When President Reagan and General Secretary osity because he heads a new leader- Gorbachev meet in November they ship with many new faces — a team will face a wide array of difficult 135ks. Many stem from marked and, in the Soviet perception, con-

tinuing - deterioration of U.S.-Soviet relations. Statesmanship of the highest order will be required on both sides to make a meaningful start in dismantling the main obstacles to a constructive and stable relationship. Yet the importance of the occasion should provide motivation to move forward. An initial general exchange

of views would make sense. Priority objectives — all of them interconnected - should include restoration of a modicum of mutual

trust: re-activation of bilateral relations: a measure of tangible progress in arms control; safeguarding of longer-term international security for all, including Third World countries. Some analysts say that trust is not the issue. But restoration of at least a minimal degree of confidence is indispensable. Work on resuming normal bilateral dealings in the nonmilitary sectors cannot begin so long as both sides keep their fingers on the trigger. Besides, there is the oft-neglected psychological aspect and the need to reassure an anxious world. A solemn reaffirmation of the

Mr. Meese, in his Bar Associa-

to slow down the nuclear arms race at all levels, as well as to refrain from further structural diversification weapons systems. This would be in the interest of the domestic economies of both countries.

The three-pronged nuclear arms control talks in Geneva have so far been barren of results, Hence, as the summit approaches: attention on both sides will presumably center on this crucial sector. And it is above all in this sector that an auxious world expects the meeting to reach some measure of tangible progress. The various moves, proposals and

responses in this field are public knowledge. So are the major differences in positions.

Limited accords or a rapprochement on specific matters, such as the possibility to seek a prompt conclusion of a comprehensive test ban treaty, would be welcome. But the main problem is how to advance in all three interlinked areas in the face of divergent postures, especially with respect to the Strategic Defense Initiative. Even a partial removal of the obstacles - about which Mr. Gorbachev spoke with remarkable frankness to Time magazine recently can seem a formidable task.

However, we are dealing with no ordinary diplomatic meeting but with one whose outcome will affect the destiny of mankind. A determined joint effort at accommodation is imperative. No sensible option should be foreclosed. The modern history of international relations does contain examples where clarification of intent coupled with a fresh, imaginative and politically flexible approach to a set of interconnected issues, as well as readiness for mutual concessions. helped to find common ground even in situations of utmost difficulty.

CONTRACT -

By Tom Wicker

N EW YORK — The new Soviet proposal for a 50-percent reduction in the two superpowers' offensive weaponry has made it clear that no serious arms control agreement can be reached unless President Rea-gan's Strategic Defense Initiative is "on the table" at Geneva.

All of the details have not been disclosed, and probably will not be for some time, but the new Soviet position obviously is considered con-structive even by the usually skeptical Reagan administration.

Mr. Reagan himself said that the proposals outlined to him directly by Foreign Minister Eduard Shevardnadze and in a letter from Mikhail Gorbachev could lead to serious bargaining and that "progress can be

made" in the arms control talks. The other side of the coin is that the new Russian approach was coupled with a demand for a cessation of work, apparently including laboratory research, on the SDI to develop a space-based missile defense.

Mr. Shevardnadze was scarcely out of the White House before Mr. Reagan was telling reporters that "we are determined to go forward" with the SDL George Shultz, the secretary of state, reiterated that position in a later news conference.

If the Soviet proposal really is as promising as the administration has suggested, Mr. Reagan cannot credibly sustain his insistence on the SDL He says, for example, that when the detailed Soviet plan is laid out at Geneva, "we hope it will be free from preconditions and other obstacles to progress." But his insistence that he will "go forward" with the SDI is just such a "precondition" and could become the crucial "obstacle to progress" on deep reductions in offensive weapons that he also advocates.

Moscow, before and particularly since Mr. Gorbachev's ascent to power, has clearly established its strong opposition to strategic defenses. The latest evidence is in its willingness -not yet detailed and probably not yet as comprehensive as necessary — to pay the price of drastic reductions in its offensive arsenal.

The reasons for the Russians' adamant stance are numerous. They have good cause to fear that superior technology might give America serious advantages in a defensive arms race. Security considerations as well as the determination to remain an equal superpower with the United States would drive Moscow to match a space-based U.S. defense; but Soviet leaders can have little desire to make the buse investment and underso the economic adjustments that such an

undertaking clearly would require. Just as likely, the revolutionary shift from offensive deterrence to strategic defense would force equally drastic changes in the structure and power centers of the Soviet military -a prospect that the civilian leaders probably do not savor, and that mili-

tary leaders may strongly resist. The serious domestic problems. both economic and structural, that face Mr. Gorbachev should cause him, moreover, to seek an improved climate in Soviet-American relations - which is unlikely to result from a new defensive arms race but might well begin in an agreement to reduce offensive armaments.

That the Russians oppose a strategic defense for good reasons does not entitle them to their own precondition — that the SDI be abandoned before negotiations begin. Nor can they rationally insist on halting American laboratory research. But deployment of a strategic de-

fense may be, as Richard Nixon has stated, "the ultimate bargaining chip" — one that, properly used, could yield the greatest accomplishment of Mr. Reagan's administration. What will be necessary, however, is that he soften his refusal. expressed in his last news conference, even to consider any form of tradeoff involving the SDL Even if the SDI were placed "on

the table" at Geneva, the result would not necessarily be total abandonment of strategic defense. It is the negotiators' business to examine all implications of possible trade-offs, to determine the consequences for each side in each possible case and to arrive, if possible, at an agreement most advantageous to both sides.

What the new Soviet position has made as clear as anything can be is not that a simple deal can be quickly had, but that it is up to Mr. Reagan to The New York Times.

reflects solely his own views, to the let his negotiators negotiate:

> SUE DURR Munich,

For Good King Dick

Regarding the opinion column "500 Years On, Richard Tricks His Fans" (Sept. 17) by A.L. Rowse:

It is true that Richard III was less popular in the south of England, which regarded all northerners as foreign barbarians, than he was in the north. But in the north his popularity was such that he achieved semi-legendary status, being remembered as "Good King Dick" for centuries after his brief reign. As for the treatment of the dead king's body, a victorious army of foreign mercenaries - like the proverbial 7-foot-tall gorilla .-

can do very much as it likes.

since Richard III has borne his name, since all three Richards died violent deaths. (We have not had too many CLAIRE JORDAN.

There are three prime suspects in the Tower princes' murder: Buckingham, Henry VII and Richard III. Richard had no reason to kill them:

They were imprisoned; their murder would destabilize his rule (as it indeed did); he had a just and courageous reputation. The princes' mother entrusted her daughters to him. "No one has dared to revive the name Richard for an English king," Mr. Rowse says. Richard was duke of

Gloucester. The present duke of Gloucester. Queen Elizabeth II's first cousin, is named Richard. PHILIP BRUTTON.

Chicago-Singapore Linkage Works in Currency Test

By H.J. MAIDENBERG

New York Times Service EW YORK — The year-old currency-futures linkage between the Chicago Mercantile Exchange and the Singapore International Monetary Exchange got its first test by fire last week.

On Sept 22, representatives of five leading industrialized nations - the United States, France, West Germany, Japan and Britain — announced late in the afternoon a plan to take concerted action to drive down the value of the dollar. That caused currency-futures traders to want to act quickly, but, at the time, the

markets in the United States were closed. Because of the linkage between the Chicago Merc and the Singapore exchange, however, the trades were able to be made Sunday night, New York time.

London and the U.S. may face problems." By the time that trading ended in Singapore, Simex traders in Eurodollar, Deutsche mark and yen futures had experi-enced their busiest day since the exchange opened on Sept. 7,

linkages between

"But the proposed

"The record 5,556 contracts traded on the Simex last Monday may not have been much, compared with our daily volume in these futures, but it did give alert traders who were long the dollar a chance to offset their positions when our market was closed," said William J. Brodsky, president of the Chicago Merc. "And

that is what exchange linkages are supposed to do." Specifically, the growing linkage of futures exchanges across time zones is aimed at providing traders with an opportunity to use both linked markets as if they were one. For example, traders who had sold short yen futures on the Chicago Merc were able to buy out of their positions on the Simex hours before United States and European exchanges opened, Mr. Brodsky said.

ECAUSE the dollar dropped 5 percent — its largest oneday decline — last Monday, this ability to offset contracts proved beneficial to traders who used this service. It also opened up the entire subject of 24-hour global markets.

"One reason the Chicago Merc-Simex linkage has thus far operated without any problems is that both markets have agreed to abide by American exchange regulations," said Eric C. Bettelheim, a member of the London law firm of Sidley & Austin and a leading authority on international market laws. "But the proposed linkages between London's stock and futures exchanges and those in the United States may face problems."

One problem, Mr. Bettelheim said, is that Britain's large securities, money and commodities markets have, until now, been largely unregulated, with trading conducted under the honor system. Although a number of groups in London's financial center are now working on plans to strengthen self-regulation of their various markets, "nothing like the American Securities and Exchange or Commodity Futures Trading Commission is contemplated," he said.

Because of the absence of a British body of organized laws. governing futures trading, the basic premise of the proposed linkages between London's stock and commodities exchanges (Continued on Page 17, Col. 4)

Egyptians Increase Oil Prices

Kharg Attacks Are Blamed

The Associated Press

CAIRO -- Egypt increased on Monday the price of its various grades of exported oil by 25 cents to 45 cents a barrel in a move that one official said was related in part to Iraq's attacks on Iran's main export terminal in the Gulf.

The decline in the dollar's value and a decision by the Soviet Union to temporarily halt exports of crude oil to the West also were cited for the second consecutive monthly price increase by Egypt, which is not a member of the Organization of Petroleum Exporting Countries.

Hammad Ayoub, the Oil Ministry's foreign marketing chief, said the price for the top-grade Gulf of Suez and Ras el-Bihar crudes will be \$26.10 a barrel in October, 45 cents higher than the price that applied in September.

He said the Belayim and Ras Badran blends of oil will sell for \$25 a barrel, up from \$24.55 in September, and that the price of Ras Ghareb heavy crude oil will be \$23.50 a barrel, up 25 cents from the previous month.

Egypt's daily oil production averages about 870,000 barrels, about half of which is exported. Egypt is a minor oil supplier to the United States, but its main customers are in Europe, Africa and Asia.

An authoritative ministry source, who spoke only on condition that he not be identified, said the October increases were prompted by "a shortage on the world market for the time being." One factor, he said, was a drop in

Iranian oil exports caused by Iraq's bombardment of Iran's Kharg Island oil terminal. Iraq said Monday that its warplanes raided Kharg Island for a seventh straight

Harvard Review Seeks New Image

Magazine Needs Formula to Lure More Readers

By Steven E. Prokesch New York Times Service

NEW YORK - After decades of telling business people how they should handle their marketing problems, Theodore Levitt, the new editor of the Harvard Business Review, has one of his own to worry about: the Lee Toblers of the world. Every other month, when the

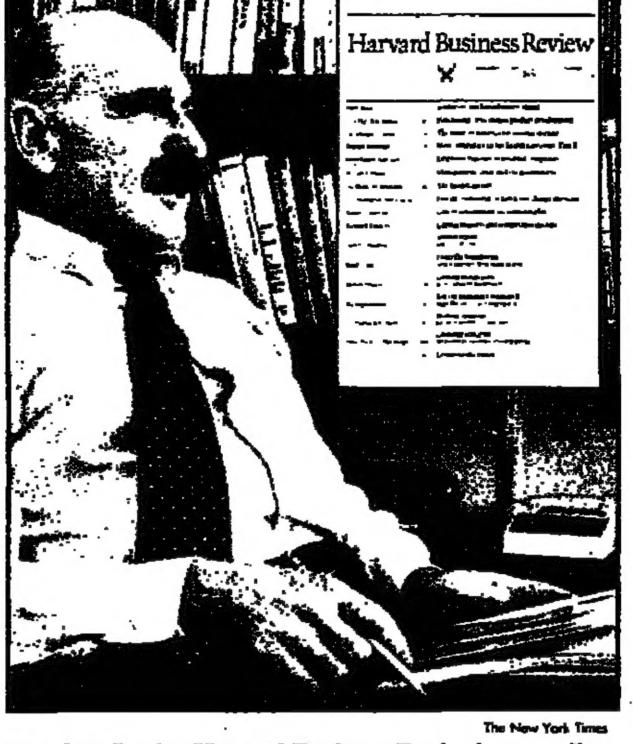

magazine published by the Harvard Business School crosses Mr. Tobler's desk, the chief financial officer of B.F. Goodrich Co. scans the table of contents, tears out those two or three articles that might one day come in handy and files them away. "It is not a publication I read from Tobler, whose favorite magazine is The Economist, the British weekly. "I haven't met anyone who reads it from cover to cover," he added.

But finding a formula that will win more current readership and readership of more of the magazine — is viewed as important. Advertisers, who are often wary in the first place of using a magazine that comes out only six times a year, think it is critical. The magazine's policy of bunching ads in the front and in the back of the magazine does not sit well with them either.

"The Harvard Business Review is a tough sale," admitted William A. Janowsky, its general

To make the Review's meaty. articles in its 200-plus pages less painful for managers to swallow,

Mr. Levitt says that he might

Theodore Levitt, Harvard Business Review's new editor.

even try what would be the biggest change at the magazine since it went bimonthly in 1948; publishing a thinner, "less intimidating" version once a month.

Mr. Levitt also is encouraging experiments with different delivery systems. A joint venture with the Public Broadcasting Service is already producing six video programs, each modeled after an issue, and an audio-cassette product is being test-marketed. His goal is to get subscribers to read - or watch or listen to much more of the Review as soon as they get it.

Currently, "it's easy to put off

reading it," said Mr. Levitt, 60. His publishing experience began in the fifth grade in Dayton, Ohio, when he founded a newspaper with Erma Bombeck, the now prominent humor writer. He also worked as a sports writer for The Dayton Journal while in high school, he noted during a recent interview in his office on the Harvard Business School

Going monthly also might be a way for the Review both to shorten the three to nine months it currently takes to get an article into print and to boost advertis-(Continued on Page 17, Col. 5)

Japan's Surplus In Trade Was Lower in August

TOKYO - Japan's current-account surplus narrowed to \$3.49 billion in August from \$4.96 billion 3.17 billion deficit a year ago. in July but was well above the \$1.19-billion surplus a year earlier. the Finance Ministry said Monday.

The current-account, the broad-

est measure of a nation's trade performance, measures trade in goods and services as well as interest, dividends and certain transfers. The surplus in the merchandise-

trade component narrowed to \$4.38 billion in August from \$5.41 billion in July but was above the \$2.18-billion surplus a year earlier, the ministry said

Japan Moves on Program

Japan set deadlines Monday to speed up its "action program" aimed at easing the way for foreign products to enter the Japanese market and to reduce criticism of its huge trade surpluses, The Associated Press reported from Tokyo.

A government task force pledged to give foreign companies a greater opportunity in bidding for government contracts after Tuesday, and outline how they may have a voice in shaping Japan's product approval measures by next year, a Foreign Ministry official said. Japan's trade partners have been accusing Japan of dragging its feet in both areas.

Most of the new deadlines in those and other areas were not specified when Japan first announced the market-opening package on July 30, saying it would be put into effect over three years. In some cases, Monday's action moved up deadlines that had been

Prime Minister Brian Mulroney appointed a Supreme Court of Canada Justice, Willard Estey, to begin hearings on Wednesday.

Inflation in Peru Falls Sharply Under García

United Press International LIMA - Peru's inflation rate slowed to 3.5 percent in September, the lowest monthly increase this year, the government said Monday.

The drop was the first concrete result of a series of price freezes and other economic measures taken by President Alan Garcia Pèrez since he came to office on July 28.

In August, the inflation rate was 10.8 percent. Accumulated inflation for the last 12 months was 188.2 percent, a slight drop from August's accumulated rate of 191.7 percent. Before Mr. García was sworn in, analysts predicted that inflation would exceed 200 percent this

The Garcia administration also announced that it would nearly halve bank interest rates on loans, the third time it has done so since taking office.

The Central Reserve Bank said interest rates would be reduced to 45 percent from 75 percent on Tuesday. When Mr. Garcia took office, interest rates were 280 percent.

Shortly before its collapse, CCB received 255 million Canadian dolments. The combined cost of the collapse of both banks is expected to surpass 1.2 billion dollars.

Although the assets of the two banks amounted to about 4 billion dollars, that represented only about 1 percent of the total 400 time to find a merger partner or billion dollars in assets held by Canada's 14 domestic banks, Mrs. McDougall said.

"But they were important re-Monday that several reorganiza- gional institutions, and their loss is tion proposals for Northland were a serious matter to Western Canaexamined, but that none proved to da and to the nation," she said. "Both banks had expanded to ma-The government's previously an-

> McDougall said. The federal government has promised to repay all uninsured deposits of both banks, although the Canada Deposit Insurance

Stocks End With 7.8-Point Gain

NEW YORK — Prices were mixed at the close of the New York Stock Exchange Monday in active trading. The Dow Jones industrial average, which rose 8.74 Thursday, was up 7.84 to 1.328.63 at the NYSE close.

A more than 7-point advance in the price of General Foods, a heavily weighted component of the Dow Jones industrial average, was largely responsible for the blue chip index being in plus territory, analysts said.

Philip Morris, the giant tobacco and beverage company, agreed Friday to acquire General Foods for \$120 a share and the boards of the two companies approved the merger agreement Monday morning.

Declines led advances by an 8-7 ratio and volume amounted to about 103.6 million shares Decimination of the Federal Reserve of the property of the pro on the first day of the new extended trading hours, compared with 106.1 million Thursday.

out General Foods, you have the market flat to down."

Mr. Kahan said that, "everyone is on the sidelines waiting for a direction to emerge. It's hard to come up with a cogent reason to buy stocks at the moment."

Marvin Katz, of Sanford C. Bernstein, said the market tested the 1,300 level and must build a base in the 1,300 to 1,320 area before moving. higher. "It's a very bored, lackluster market." he

Gulf States Reach Pact On Closer Economic Ties

RIYADH — Finance ministers of the six member states of the Gulf Cooperation Council have agreed to coordinate monetary policies and unify customs duties, it was announced Monday.

RIYADH — Finance ministers of the six member states of the Gulf Cooperation Council have agreed to coordinate monetary policies and unify customs duties, it was announced Monday.

Finance Minister Jassim Mohammed al-Khorafi of Kuwait said at the end of a two-day meeting here that the agreement was in line with a joint economic accord drawn up in 1981 to forge closer economic links.

He did not say if the new accord entailed the introduction of a common currency in the six states, which has been recommended in the past. He said, however, that a coordinated system of customs duties would be applied from Jan. 1. The council includes Bahrain, Kuwait, Oman, Qatar. Saudi Arabia and the United Arab Emirates.

Sales figures are profilcial. Yearly highs and lows reflect the previous S2 weeks plus the current week, but not the latest tradice day. Where a solit or stock dividend amounting to 25 percent or more has been paid, the year's high-low range and dividend are shown for the new stock anily. Unless afterwise nated, rates of dividends are annual distaursements based on the latest declaration.

a — dividend also extraits?.
b — annual rate of dividend plus stack dividend.

c — Houtdating dividend.

Germans Bid For Control Of Chemical Producers

By John Tagliabue New York Times Service FRANKFURT - Last May, BASF, the West German chemical giant, capped a major acquisition drive by laying out \$1 billion for an American ink and paint maker, In-

Earlier this year, Hoechst, another industry leader, snapped up Rosenthal Technik, the technology arm of the Rosenthal porcelain group. At about the same time, Bayer, the third of Germany's chemical giants, announced ambitious plans to boost its drive into the U.S. pharmaceuticals market, including the construction of a multimillion-dollar research center in Connecticut.

West Germany's three biggest chemical companies - also the world's three largest until 1981. when Du Pont acquired Conoco and grabbed first place by total sales — are on the move.

For the last two years they have enjoyed their biggest earnings boom since the mid-1970s. Unlike their U.S. counterparts who are their U.S. counterparts, who are chemical business. staggering under the combined burdens of the strong dollar, fierce foreign competition and weakening tion, BASF paid an estimated \$100 ceived the main shares. Today, the percent sales rise, to \$7.8 billion. demand, the West German compa-million for a Monsanto plant in three together outsell the combined nies have available capital.

3 U.S. Companies Accuse Japanese Of Dumping Chip

The Associated Press SAN JOSE, California - Three major U.S. semiconductor compa-nies filed an anti-dumping petition Monday against allegedly predatory" Japanese practices.

Advanced Micro Devices Inc., Intel Corp. and National Semiconductor Corp. — three of the five largest U.S. semiconductor companies - announced the action at a news conference. The memory chips are called EPROMS - erasable programmable memory com-

Japanese companies that make and export a type of memory chip crucial in sophisticated computer function were named in the petition to the U.S. Commerce Department and the U.S. International Trade Commission. Among the Japanese companies named were Fujitsu, Mitsubishi Electric Co. and Hitachi Ltd., Japan's leading

EPROM producer.

The petition argued that the Japanese companies are selling goods below cost, and pleaded for protection against the imports by imposi-tion of countervailing duties.

Both Boards Approve General Foods Merger

NEW YORK (UPI) - Philip Morris Cos. and General Foods Desert Corp. announced Monday that the boards of directors of both companies have unanimously approved the merger announced last week. Under terms of the agreement, Philip Morris, the tabacco and beverage giant, will acquire for \$120 per share all of the stock outstand-

Ericsson began a streamlining ive at EIS after it showed a 217illion-kronor (\$26.9-million) loss

Ericsson's first half pretax profit is year fell to 644 million kronor om 928 million because of lower-an-expected earnings at EIS. Explaining the move to pull out the U.S. market for for personal imputers, the spokesman said at Ericsson had not achieved the

stake in Thiess Dampier Mitsui Pty. for 10 million dollars, Mr. Lo-Coal Pty.

Separately, BHP's managing di-rector and chief executive, Brian Loton, said his company would spend 1.01 billion dollars increasing its stake in Mount Newman to 85 percent and in TDM to 80 per-

In addition to the purchases from CSR, BHP will also buy the 25-percent Mount Newman stake held by Amax Iron Ore Corp., Mr.

BHP's would pay 880 million dollars for the Mount Newman in-CSR's subsidiary, Pilbara Iron terests and 140 million for the Ltd., which has a 30-percent inter- TDM shares. CSR would in turn est in the Mount Newman iron ore buy BHP's 50-percent stake in

-The Mount Newman joint venture supplies most Australian needs and has several long-term export contracts with Japan, South Korea and other countries.

On the Delhi restructuring, CSR said it will repay over the next six months all the existing Delhi Australia fund debt of 1.3 billion dollars at current exchange rates.

The repayment will be funded by

the proceeds of a 1985 share issue to raise about 250 million dollars, divestment of Pilbara Iron, TDM. CSR Pastoral Properties, Richter Drilling Pty. and other assets to raise 800 million dollars, and a 250million-dollar net increase in long-

West German, Italian Groups Plan A Venture to Market Space Flights

Compiled by Our Staff From Dispatches

BREMEN, West Germany — Aerospace groups in West Germany and Italy will cooperate in a venture to market space flights and the use of space laboratories and production units, one of the companies said Monday.

ERNO Raumfahrttechnik GmbH, a wholly owned subsidiary of Messerschmitt-Bölkow-Blohm GmbH, West Germany's leading aerospace company, said it would set up a joint subsidiary with Italy's Aeritalia to give industry access to space as a laboratory and produc-

The new company, Intospace GmbH, would be an intermediary between the aerospace sector and other industries that at present are not fully aware of the range of commercial uses to which space could be put, ERNO believes.

Intospace would offer development of space-based production facilities and transport vehicles as well as help with financing. ERNO and Aeritalia had leading roles in developing Europe's orbiting space laboratory.

Who has produced over 400,000,000 holograms?

American Bank Note. The company that pioneered, perfected, and continues to produce more of these amazing images than anyone, anywhere.

An American Bank Note hologram was the 'centerpiece' of a spectacular awardwinning National Geographic cover.

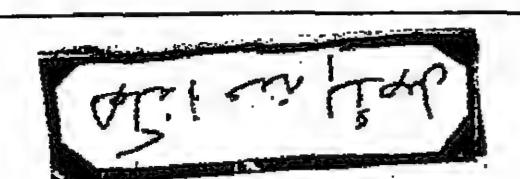

Since 1983, MasterCard and VISA® cards have been safeguarded against counterfeiting by holograms. They offer security of the highest order because they are inimitable. And American Bank Note is the hologram supplier.

These extraordinary, truly threedimensional images of ours are generating unusual excitement in publishing, packaging, product design and pointof-sale display...

in advertising, direct mail and promotion and many other uses. They seem to float in space...so vivid, so true-to-life, and they change perspective...even let you look around edges and watch hidden features come to light! This quality of animation can. make a package leap from the shelves...a magazine rise above a sea of look-alikes... an annual report express the stature of the most prestigious Fortune 500 company.

If you'd like to know more aboutthese laser-generated images and American Bank Note's unique graphic processes and capabilities,

contact our Marketing Department. They can help you achieve an amazing image of your own.

A wholly-owned subsidiary of International Banknote Company

CURRENCY MARKETS

Dollar Plunges to 4-Year Low Against Yen

Compiled by Our Staff From Dispatches LONDON — The dollar closed almost unchanged in Europe on Monday from its opening and Friday closing levels after plummeting in Tokyo to its lowest level against the Japanese currency in nearly four years.

In Tokyo, the U.S. currency fell to 217.05 yen - its lowest rate since Dec. 4, 1981, when the currency traded briefly at 215.80 from Friday's close of 222.50. In later trading in London, the dollar fell further, to close at 215.60.

"The rate has fallen to 216 yen to the dollar, but we're still not sausfied with that," said Tetsu Muto, a Bank of Japan spokesman.

Mr. Muto's statements echoed those made earlier in Osaka by the governor of Japan's central bank, Satoshi Sumita. "Neither the United States nor Japan have a fixed idea on how far the dollar should fall," he said. "What we're hoping for is that it'll fall further."

and those in Chicago and Philadelphia has thus far been that all traders would be treated equally, and all contracts would be uniform and exchangeable in both markets.

"All well and good," Mr. Bettelheim said. "But under which country's tax and regulatory laws would traders operate? In the United Kingdom, for example, the Inland Revenue has a flat tax of 30 percent on trading, but may also levy much higher taxes on an individual's total income. Your Internal Revenue Service simply levies a maximum futures-trading profits tax of 32 percent, but has yet to rule on gains from international transactions."

Another potential problem concerns broker insolvencies and bankruptcies, he continued. As rule, the clearing units of U.S. futures exchanges, in effect, guarantee the funds of traders, which are by law segregated from the broker's money. This means that customers of a defunct U.S. brokerage house can get their money without waiting for the end of legal proceedings.

"In the U.K., there is no segregation of customer funds and distribution provision until the bankruptcy or insolvency is cleared up," Mr. Bettelheim said. "There have been cases here where brokers have used customer funds, including trust and discretionary accounts, to try to trade out of their predicament while insolvent or bankrupt."

Another expert, Thomas A. Russo, a partner in the law firm of Cadwalader, Wickersham & Taft, agreed with Mr. Bettelheim's assessment of the potential hurdles to the continued internationalization of the futures markets but added:

cern national sovereignty and protection against fraud. No nation will readily agree to have its citichange in the morning session, during Saturday's and Monday's zens subjected to foreign laws. This applies to criminal acts such as fraud. While the Chicago Merc and Simex have agreed to a uniform set hardly any actual selling during the due 1999 for Mitsubishi Heavy In- of rules, this may not be the case day. As in the floating-rate sector, dustries Ltd. again a strong per- with the much older, much larger

Business Review Seeks to Draw More Readers (Continued from Page 9)

ing revenues. Review officials add-"I've got a lot of toys in my mind, but this is one of the more tantalizing," said Mr. Levitt. Mr. Levitt appears intent upon

practicing what he preached 25 years ago in a Review article entitled "Marketing Myopia." In that piece, still considered required reading at business schools. Mr. Levitt chastised companies for being product-oriented rather than customer-oriented. Too many companies do not understand what their true business is, he wrote. The railroads, for instance, thought they were in the railroad business, not the transportation business, allowing the auto, trucking and airline industries to take over their

As far as Mr. Levitt is concerned, the Harvard Business Review's true business is educating managers so they can do their jobs better and be more responsible members of society - and not publishing a magaane every two months.

Not that the Review is yet in ianger of going the way of the passenger railroads. Paid circulaion now stands at 243,000, an allime high for the 63-year-old publiation. And ad pages climbed 10.8 ercent in the first half of 1985, ccording to the Publishers Inforaguion Bureau Reports.

In the fiscal year that ended June 30, the Review's revenues rose tearly 9 percent, to a record \$12.5 nillion. Subscriptions, at \$35 a rear, account for about 60 percent of that sum. Advertising generates about 20 percent. And the rest comes largely from articles recycled in the form of reprints, books and the 11 foreign-language editions that boast a circulation of more than 50,000.

Profits, while not disclosed, are big enough to enable the Review to make a "substantial contribution" to the Harvard Business School, "The two biggest hurdles con- said Kenneth R. Andrews, who headed the magazine for nine years

CAPA

138 2016 -2016

By Richard Whelan. 342 pages. \$19.95.

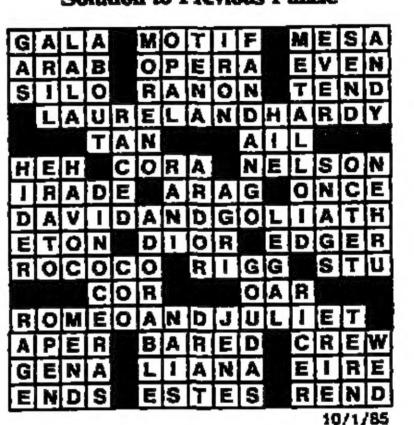

ROBERT CAPA PHOTOGRAPHS Edited by Cornell Capa and Richard Whe-

lan. 242 pages. \$35. Alfred A. Knopf, 201 East 40th Street, New York, N. Y. 10022.

By Herbert Mitgang

E VERYTHING about Robert Capa was larger than life, including his death. After he had covered the Spanish Civil War, the Japanese invasion of China, World War II, the 1948 Israeli-Arab war and the French war in Indochina, his luck ran out when he stepped on a mine near Hanoi while shooting the dying French campaign in 1954. Of course, pictures were found inside his camera; he had captured the scene on the battlefield in the last moments. of his life. Friends who mourned him as well as strangers around the world remembered his most famous picture - the falling Loyalist soldier in Spain, his rifle flying out of his hand at the instant the bullet struck. Capa had followed his advice to other photographers

Solution to Previous Puzzie

only too well: "If your pictures aren't good enough, you're not close enough." Richard Whelan's biography is first-rate in every way, right down to the valuable list of

Capa's published photo-stories — from his earliest pictures of Leon Trotsky in 1932 to his last in the Red River Delta in 1954 for Life and Time magazines. Biographies of photographers, witnesses to the lives of others, are not usually exciting; one exception is Carl Sand-burg's of his brother-in-law. Edward Steichen. But in Whelan, who writes on art and photography, Capa has a wise and accurate chronicler. As everybody who knew and admired Capa can testify — from North Africa and Sicily to the watering holes of London and Paris - he could be an inventive storyteller. particularly when describing his adventures. Whelan delivers the wonderful stories; most turn out to be true.

To the men and women whose lives he crossed, Capa was a charismatic personality. Whelan recounts his love affair with, among others, Ingrid Bergman; their trysts began in postwar Berlin and continued in Irwin Shaw's beach house in Malibu, California. The full story of his life is here, from his birth in Budapest as Endre Friedmann in 1913 - he adopted the name Robert Capa when his credits began to appear — to his sympathies for the Loyalists and anti-Fascists anywhere, to his friendship with Ernest Hemingway, John Steinbeck, Herbert L. Matthews, Charles Collingwood and other writers. John Hersey described Capa as "the man who invented him-

His truth lives on in black and white. A companion volume of 260 pictures, "Robert Capa Photographs," edited by Whelan and Cornell Capa, the photographer's brother, shows what a stunning contribution Capa made to photojournalism in this warring century. Looking at the pictures, it becomes apparent that Capa always saw the human story behind the event. The faces of soldiers, widows, collaborators and prisoners dominate the front-line action. His was not impersonal newsreel-style photography; it was the horrible image of war itself.

Herbert Mitgang is on the staff of The New York Times.

(Blanding-BENCHACONSCION OF

Patchwork Saints Jolt 49ers, 20-17

Compiled by Our Staff From Dispatches SAN FRANCISCO — Before should help open the 49ers' eyes." the game, the roles had been sharply defined. A week earlier, the San Francisco 49ers looked like the defending Super Bowl champions they are in demolishing the Los Angeles Raiders. The New Orleans Saints, meanwhile, had lost three starting offensive linemen against Tampa Bay and seemed headed for the cellar in the NFC's Western Division.

But quarterback Dave Wilson. working behind a patched-up line, outperformed Joe Montana as the

NFL ROUNDUP Saints registered a 20-17 National Football League upset victory over

the 49ers here Sunday. Wilson passed for 189 yards and was sacked once, but Montana had perhaps the roughest day of his career. He was sacked six times and intercepted twice; he completed only 12 of 26 passes for 120 yards; his completion average was under 500 for only the third time in his seven-year career.

offensive yardage. "Not bad for a raced into the end zone behind a makeshift line," said tackle Ralph host of blockers to raise New Williams. "But I really don't con- York's record to 3-1. sider us that. We're all profession-

weren't." Wilson's 43-yard touchdown fense registered six sacks as the pass to Eugene Goodlow early in the fourth quarter was the score that stood up for victory. A 79-yard period. But three minutes later, the Saints scored on a three-play, 83-

Wilson's 38-yard run. "This game will help both teams," said running back Wilson,

we'll get some respect, and the loss

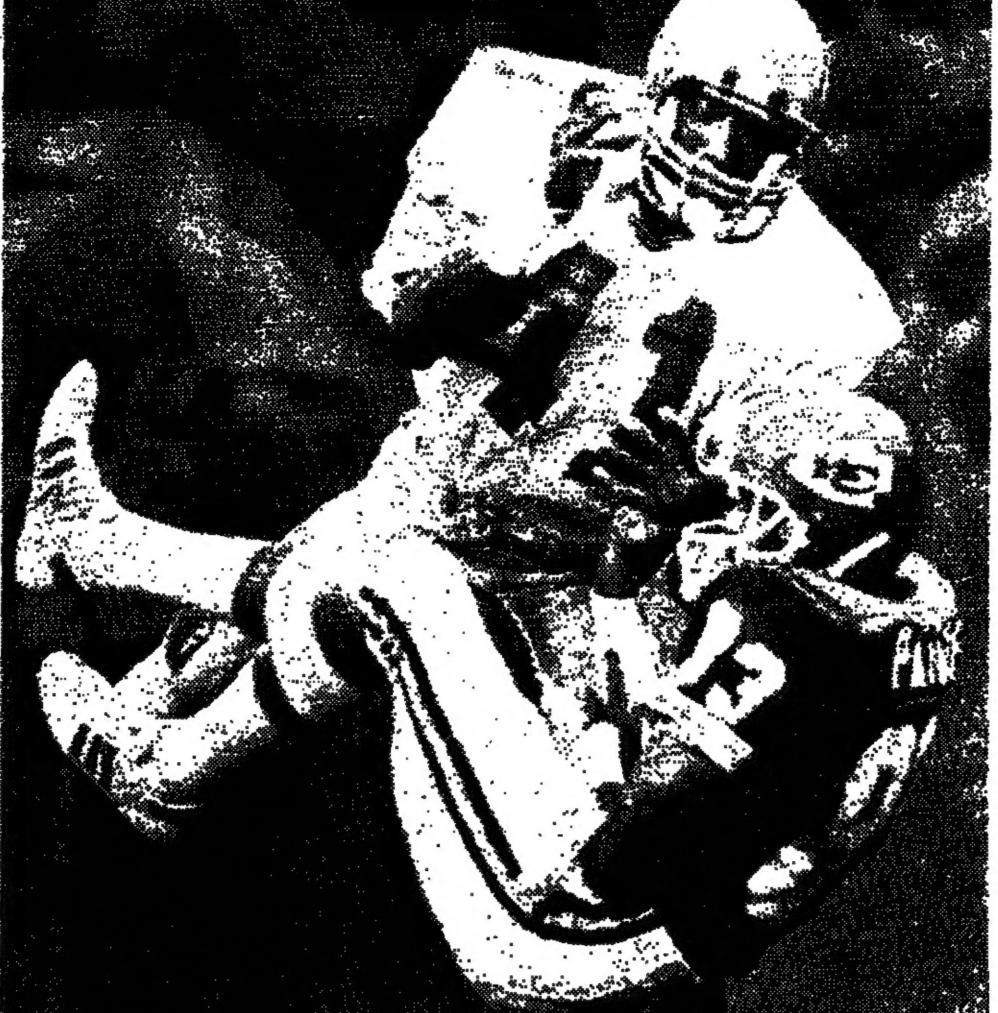

Rams 17, Falcons 6: In Anaheim, California, quarterback Dieter Brock, a 34-year-old NFL rookie, completed 16 of 20 passes for 215 yards and two touchdowns to lead the Los Angeles Rams to their fourth straight victory. The Rams are off to their best start since 1978, while the 0-4 Falcons are off to their poorest since 1968.

Vikings 27, Bills 20: In Orchard Park, New York, Ted Brown's 22yard TD run with just under three minutes to play gave Minnesota its decision over Buffalo. Quarterback Tommy Kramer threw three touchdown passes for the Vikings, including one to Brown, but 3-I Minnesota squandered a 17-point halftime lead before setting up Brown's game-winning run.

Giants 16, Eagles 10: In Philadelphia, cornerback Elvis Patterson returned an intercepted pass 29 yards for a touchdown 55 seconds into overtime, giving the New York Giants the decision. Patterson picked off a pass thrown by Eagle The Saints had a 354-231 edge in quarterback Ron Jawerski and

Browns. 21, Chargers 7: In San als. We wouldn't be here if we Diego, Kevin Mack scored two touchdowns and the Cleveland de-Browns defeated the Chargers.

San Diego's Dan Fouts, a fivetime Pro Bowl quarterback, sufyard drive that began with Wayne he is expected to be sidelined from was 18-of-37 for 250 yards. three to six weeks.

Wide receiver Stephone Paige was in great form Sunday in rainy Kansas City. One of his two TD receptions came after the ball had slipped through the hands of Seattle defender Eugene Robinson — and through his own as well: Paige clamped the ball between his thighs.

two-yard run, gave San Francisco a when he was decked by linebacker touchdowns as Miami downed the Dolphins to a third straight victory. Iis. The Jets had to punt only once 17-13 lead two minutes into the Eddie Johnson on a first-period Broncos. Marino completed 25 of Miami safety Bud Brown inter- as they won their third game in a me. Angels, With One-Game Lead, Face Key Series in Kansas City

Compiled by Our Staff From Dispatches

CLEVELAND - The California Angels are back in first place. The Kansas City Royals are back home. Both are in place for their American League West hitter to lead the Yankees in the first game. Don showdown.

On Monday night, the Angels were to take a onegame lead into Kansas City for the start of a four-

BASEBALL ROUNDUP

with Kansas City on Sunday by defeating Cleveland. 9-3, while the Royals were losing, 6-3, in Minnesota. "What we need to do is win one in a row," said Manager Dick Howser after the Royals had suffered a three-game sweep. "That's where we have to start. It and James his 30th save of the season. helps to be going home."

The Angels didn't look like world-beaters during the weekend as they dropped two out of three to the Indians -- who have lost 100 games this season.

"We're in as good shape as we can be," said California Manager Gene Mauch. "This is what everybody's

said it would go down to the final series." cluding four head-to-head. California winds up the a one-out single by Keith Hernandez. season with three games in Texas, while Kansas City

finishes with three at home against Oakland. Angels in 1985, but the Royals' most effective starter begin a three-game series Tuesday night in St. Louis. against California this season, Mark Gubicza, is not scheduled to pitch any of the four games. Gubicza, who won both of his 1985 starts against California, lost to Minnesota on Sunday as Kent Hrbek drove in hitter to help the Dodgers complete a sweep of a threethree runs and Mark Salas homered.

Rookie pitcher Kirk McCaskill gave California the number for clinching the Western Division crown performance it needed to take over first place. McCas- stands at three. kill gave up seven hits and struck out a season-high 10. helped him relax. "I got a call in the bullpen on the Reds swept their three-game set with Houston. Keepdrive, ending with Roger Craig's fered torn right knee ligaments passing for 390 yards and three 40, 24 and 27 yards helped the the New York Jets edge Indianapo-telephone, and I thought it was long distance or ing the pressure on first-place Los Angeles, Cincinnati something," he said. "But it was Gene Mauch. He told has won four straight and 12 of its last 15.

You're just going out there for one ballgame." Blue Jays 13, Brewers 5: In Milwaukee, Tony Fer-New York 10-yard line during the nandez had four hits, drove in four runs and scored Jets 25, Colts 20: In East Ruther- game's last five minutes, but finally three times to help Toronto reduce its magic number were thwarted at the five on a key to three for clinching the Eastern Division. Lloyd

Yankees 4-9. Orioles 0-2: In New York, Don Mattingly hit his 32d and 33d home runs of the year and Joe Cowley and Dave Righetti combined on a three-Baylor drove in four runs and Dave Winfield three in helping New York complete the doubleheader sweep.

Red Sox 8, Tigers 4: In Detroit, Mike Easler went 4game series that should go a long way toward deciding for-5, including a homer, and Wade Boggs had four the division winner. California broke a first-place tie hits to power Boston past the Tigers. Boggs raised his major league-leading batting average to 372 Rob Woodward went eight innings for the victory in his big-league debut.

White Sox 3, A's 0: In Oakland, California, Tom Seaver and Bob James combined on a 10-hit shutout of the A's. Seaver registered his 303d career victory

Rangers 5, Mariners 2: In Seattle, Bill Stein's threerun pinch-double in the eighth lifted Texas. Reliever Greg Harris, who allowed Seattle to tie the score at 2-2 in the seventh, picked up the victory.

Mets 9. Pirates 7: In the National League, in Pittsbeen talking about for four or five months. Everybody burgh, Gary Carter's two-run home run with one out in the 10th enabled New York to pull within three Last year, the Angels and Royals were tied going games of Eastern Division-leading St. Louis. Carter into the final week (Kansas City eventually won the hit reliever Larry McWilliams's first pitch for his 13th division). This time, both have seven games left, in-homer of the month and 32d of the season. It followed

Expos 7, Cardinals 5: In Montreal, Hubie Brooks keyed a three-run seventh with a two-run triple as the Kansas City has won six of nine games against the Expos downed St. Louis. The Mets and Cardinals Dodgers 7. Giants 2: In Los Angeles, Pedro Guerrero's two-run single capped a three-run fifth and Bob Welch and Tom Niedenfuer combined on an eightgame series with San Francisco. The Dodgers' magic

Reds 5, Astros 0: In Cincinnati, Jay Tibbs pitched a McCaskill said a last-minute chat before the game five-hitter and Buddy Bell drove in two runs as the

Cubs 6, Phillies 2: In Chicago, Keith Moreland drove in a pair of runs with two singles as the Cubs handed Philadelphia its 10th straight loss. Moreland also extended his hitting streak to 18 games, tying teammate Ryne Sandberg for the league high this year.

Braves 3, Padres 2: In Atlanta, Rafael Ramirez's Denver, Dan Marino won a much- Joe Rose and 46 yards to Vince four field goals and Freeman Mo- tackle by defensive end Marty Ly- Moseby had three hits, including a two-run homer, as bases-loaded walk with one out in the ninth scored (UPI, AP) the Blue Jays registered season highs in runs and hits. Milt Thompson with the game-winner. (AP, UPI)

Slow Learners in the School for Scandal

Washington Post Service

WASHINGTON - "Would you tell your editor," said the friend, frustrated but not quite pleading, "to get those drug guys out of the sport pages. Put the names and the stories somewhere else, if you have to report it all, but you people just deal with sports."

By definition, fans are perpetual children, among the last to recognize reality and to deal with it. Newspapers that ignore life beyond the white lines are doing everyone. including the athletes, a considerable disservice. We will get back to emphasizing baseball when the commissioner of baseball is able to do just that, and back to strongside blitzes in college football when schools such as Texas Christian

University stop buying players. The frightening part of the latest drugs-and-cheating mess is how casual it all seems to have become. On June 13, 1980, John Milner had nothing to do in the early innings, he being a pinch-hitter for the Pittsburgh Pirates, so he walked back into the clubhouse and bought two grams of cocaine from a dealer. After the game, Milner testified,

he and Dave Parker "went for a ride . . . snorted a little bit and went our separate ways."

That was a fair year for sporting crime, 1980. Prior to that recruiting season, according to the letter of resignation from board member Dick Lowe, the TCU cheating scheme was concocted by himself. former Coach F.A. Dry and a couple of his assistants, over dinner. The necessary conspirators and funds were rounded up quickly.

Most college football cheaters at least win. It took TCU four years to buy more than a 3-8 record, and Dry was fired after the 1982 season. At that time, Lowe said, there were 29 players receiving more than the NCAA allows.

He insisted Dry's replacement, Jim Wacker, knew nothing of the illegalities. Some cynics cocked an eye when TCU went from 1-8-2 to 8-4 in Wacker's second season, miracles being even less common in sports than religion. Sure enough. in addition to being quite a good coach, Wacker had six of Dry's him sole possession of second place. Mark Hayes was next at 69:202. Other get better or ti'll get worse,

double-dip holdovers, including the gifted runner Kenneth Davis. "A normal blue-chip player costs between \$10,000 to \$20,000, a car and \$1,000 a month," Lowe said.

SPORTS BRIEFS

Draw Is Made for Team Golf Tourney

LONDON (AP) - The United States on Monday was named the top seed for the inaugural Dunbill Cup, a team championship event and golf's richest. Sixteen three-man squads will play for a first prize of \$300,000. The format will be singles medal play, all matches going 18 holes. The U.S. team of Ray Floyd, Curtis Strange and Mark O'Meara was paired with France in the first round of the \$1.2 million competition, to

will meet Hong Kong in the opening round. The remainder of the draw (seeded nations first): Canada vs. New Zealand, Scotland vs. Brazil, Japan vs. the Philippines, Taiwan vs. Wales, Spain vs. Nigeria and England vs. Ireland.

se staged Oct. 17-20 at St. Andrews in Scotland, Second-seeded Austra-

lia, represented by Greg Norman, Graham Marsh and David Graham,

High-Flying Blue Jays Facing Red Ink

TORONTO (AP) - The Toronto Blue Jays, within reach of their firstever American League East baseball title, face losses of between \$1 million and \$3 million this season.

"We can't take it for granted that we're going to be in the playoffs, because we haven't clinched yet," said Bob Nicholson, the club's vicepresident of finance. "But a good chunk of the loss would be eliminated in the playoffs, depending on how many games we play. You'd like to think that, with the size of crowds we've had this year, we could have made more money. But, right now, we're going to lose upward of \$3 million." The primary factor in the team's loss is a difference of almost 30 percent between the Canadian and U.S. dollars, said Nicholson, "We receive 75 percent of our revenue in Canadian dollars, but two-thirds of

Mudd Leads Weather-Plagued Open

our expenses are in U.S. money," he said.

SAN ANTONIO, Texas (AP) - Jodie Mudd completed a muchdelayed 2-under-par 68 early Monday morning and took a four-stroke lead into the day-late final round of the Texas Open golf tournament. Temperatures were around 6 degrees centigrade (43 degrees Fahrenheit) with a chill wind when Mudd and 14 others resumed third-round play. They had been stranded on the Oak Hills course by thunderstorms Saturday; heavy rains flooded the course and washed out Sunday's play. now. He has a more important mat-Mudd's 13-under 197 is the tour's low three-round total for the year. Her to resolve — credibility. To bor-

more than \$1 million a year (no- slice of the take. We find nothing repulsive about a linebacker twice Carling Bassett's size and several ball cheaters might generate more years older being able to legally than \$10 million a year. That's in earn perhaps a fifth of her income. But if colleges are going to

preach high moral standards. they'd better work at wiping out the cheaters. Recent NCAA legislation is aimed at doing exactly that. Just guessing, but TCU may have turned itself in to the NCAA in order to beg for mercy later. In baseball. Commissioner Peter

Ueberroth is trying for the same showy force the colleges produced several months ago. He wants the players to submit to random drug testing three times a year, beginning in 1986. You would think the players would be bright enough to realize that theirs is a sport that sells itself on being a public trust and would quickly volunteer to suffer a slight indignity to at least offer

the appearance of being clean. But through the executive director of their union. Don Fehr, the players have said: "Nuts." On this issue, most of what the players have to fear is Fehr himself.

Just as tougher rules will not totally eliminate college football thievery, random drug tests will not entirely snuff out the snorters from baseball. But they at least would be good-faith gestures to a public that demands little from players other than an honest effort and compliance with the laws of the land.

Olympians don't fuss about testing. Neither should shortstops. In Fehr's defense, this is strongarm renegotiation. The owners and players did, after all, agree to drug procedures in the spring of 1984. Fehr has hinted that the union

might bend, for a price. Right now,

they seem the villains to a surpris-

ingly tolerant public. If the fans had been livid rather than forgiving if they had refused to pay to watch Keith Hernandez play rather than giving him a standing ovation after his admissions under oath. Ueberroth surely would have suspended some players by John Mahaffey cut one shot off Mudd's lead by completing a 65 that gave row a line from Joe Paterno: It'll

POSTCARD

A Teaspoonful of Maine

By Donald M. Kreis
The Assecuted Press

TT/EST PARIS. Maine - Joe VV Perham looks down the hill from his home and sees fertile ground: a valley full of forest and farmland, a village with a clothespin factory and the home of his to Bangor, which happens to be the neighbor. Ole.

farmer next door, is the inspiration Tukey's house; it seems he has difor many of the Maine tales spun rected them in a circle. by Perham, 52, a retired highschool teacher.

fellow who learns that the farm he his pipe. has lived on all his life is actually in New Hampshire and not Maine. The farmer is elated. "I never could have stood another one of them Maine winters," he says.

That's a textbook example of Maine humor, Perham says. So is the one about the fellow who set off one winter's day in his snowshoes. and comes upon a hat moving through the snowdrifts. Under the hat the man finds his neighbor, so the concerned citizen asks if he can be of any assistance.

"No." comes the reply. "I still got my horse under me. Stories such as that - delivered in the Yankee drawl that New Englanders call the Down East accent - provide more than just a livelihood for Perham and other storytellers. Along with lobsters, L. L.

ful of brains to understand it," said alike. Kendall Morse, 50, a retired boat captain who has also carved out a niche as a Maine storyteller. That saying, he added, was borrowed from the late Marshall Dodge, the dean of Maine storytellers.

started a small but persistent recording industry. Perham's "That Wonderful Old Two-Holer' reached the 4,000 mark in sales. It may not be a gold record, but it takes up a favorite topic from the golden days of vesteryear: the out-

"Maine humor tends to mildly satirize what society says is proper," said Perham. Which explains why a lot of the people described in the record seem to end up viewing the "two-holer" from the bottom

looking up. Does this Down East view of the universe play in Peoria? "I've been absence. His column will be resumed to Detroit and Vail, Colorado," re- shortly.

ports Perham. "I lay a little Maine humor on them. It always works."

Another storyteller, John Mc-Donald, talks about Tukey Merrill a "world-class direction-giver." One day, Tukey gives a few motorists from Massachusetts directions nearest city. Some time later, they Ole (rhymes with holy), the pull right back up to the porch of

The woman in the passenger's chool teacher.

One of these stories concerns the but he just pulls thoughtfully on

> "Listen dear." he replies calmly. "I just wanted to make sure that you could follow directions before wasted my time directin' you all the way to Bangor."

Sandy Ives, a folklorist at the University of Maine, thinks tourists and summer people are more than just the butt of Maine humor. He believes they are the reason i exists. Noting that many Maine storytellers, including Marshall Dodge, did not grow up in the state, Ives maintains it was Maine's summer visitors who sparked the phenomenon by noticing that the locals seemed, well, different.

"The people who come here have certain expectations," says Ives. "The Maine that this creates is not the Maine that you and I run into Bean and moose hunting, such hu- every day, but it's an imaginary. mor is part of the Maine mystique. mythical sort of world that's very "It takes more than a teaspoon- real to Mainers and non-Mainers

Tim Sample, 34, is perhaps the best-known Maine humorist. Sample prides himself on adapting traditional Maine storytelling to the more mainstream forms of comedy - hence the title of his popular Dodge's "Bert and I" albums album, "Downeast Standup."

He tells people that his wife sells cosmetics, including a lipstick that features "exactly the same color as this safety orange that the hunters

"Well," he continues, "I personally feel safer ridin' in the car with Mother at night when she's wearin' that lipstick. I figure if we had a flat or somihing, you know, all she'd have to do is just stand out on the soft shoulder and just kind of puck-

Art Buchwald is on a leave of

Martin Scorsese's Place on the Periphery

By Esther B. Fein New York Times Service NEW YORK - Walking around the TriBeCa neigh-

borhood in Manhattan, where he lives, Martin Scorsese looks a little out of place. His gray-threaded hair is groomed. The woman passing

His jeans are pressed. The man

walking by is wearing a skirt. His jacket is a serene tweed. The man (or is it a woman?) cycling down the street is swathed in Day-Glo.

him has spiked pink locks.

It is easy to imagine how peculiar Scorsese must have looked directing his most recent movie. "After Hours," which was filmed in this area and recounts the story of Paul Hackett, a beige-suited computer programmer, who in a one-night, downtown odyssey encounters a maniac with a Mohawk, a sadomasochistic sculptor, a nec-'60s waitress with a beehive hairdo and a vigilante whose weapon is a Mister Softee ice-cream truck.

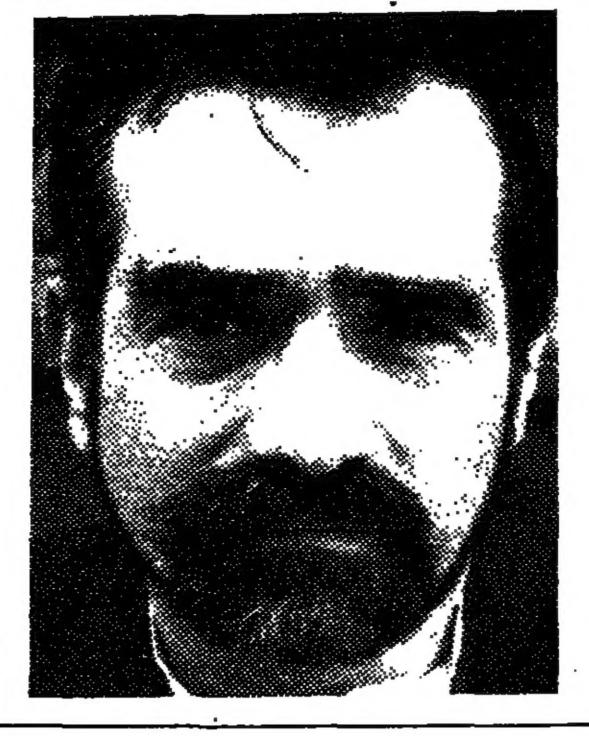

With his Little Italy accent and sensibility, Scorsese, 42, is a detached denizen of this environment, an alien with temporary citizenship, an observer at a kind of United Nations of the street.

"I've let a few people take me around, to get a sense of what's going on down here." said Scorsese, who has lived in the neighborhood for about 10 years. "But basically, I understand Paul's point of view. He's not familiar with it. He doesn't belong. That's a feeling I can identify with."

"Marty was always the quiet type because of the asthma and the breathing problems," recalled his mother, Catherine. "You know, he was excused from playing ball, so he just watched the

others." "Thank God now," said his father, Charlie, "I think he passed that stage."

Scorsese may no longer be the wheezing voungster, but creatively he has retained his position on the periphery. From his first feature film, "Who's That Knocking at My Door?" Scorsese has been an observer of life on the margin. and the movies he has directed since then - "Mean Streets." "Alice Doesn't Live Here Any-"Taxi Driver." "New York, New York," "Raging

SWITZERLAND

In the charming mountain resort of

ing black turtlenecks," he says. Scorsese said he came to identify closely with the "NYU Film School" method of moviemaking, which he described as "the gritty

sense of having made a movie by hand. In California, the very fact that the center of the industry is there, the material and the tools are there. It's more convenient out there. It's still hard to get a picture made on either coast, but there's a certain level of technical excellence on the West Coast that we don't think is very important out here. We think out here. on the East Coast, that it's content." All of Scorsese's movies, except

"Alice Doesn't Live Here Anymore," have used New York as their backdrop and in some, like "Mean Streets" and "Taxi Driver." the streets themselves be- lie came characters in the plot. His most recent project before "After Hours," however, would have taken Scorsese not only out of New York but out of the country. "The Last Temptation of Christ."

for about a year and a half, is a movie about Jesus based on a novel, and was to have been shot on location in Israel.

But the project was canceled by Paramount a few months before shooting was scheduled to begin, after the studio and its parent company. Gulf and Western. were deluged with mail protesting the making of the movie. In fighting rumors that the film would portray Jesus as a homosexual and predictions that it would be economically disastrous, Scorsese said he felt himself thrust again into the role of the outsider.

"There were all these people talking about something they'd never even rend, saying things which weren't even true and no one would listen to me," he said.

Although Scorsese seems to revel in alienation, there is one movie in his repertory that portravs a world Scorsese is not only not apart from, he is clearly a part

"Italianamerican," which was presented at the New York Film Festival in 1974, is a cinematic tribute to Scorsese's parents and grandparents and their lives in the enclave of lower Manhattan which, because of people like the Scorseses, came to be known as Little Italy. It is a loving, 50minute documentary, starring Catherine and Charlie Scorsese. set in their apartment (plasticcovered couches and all), and featuring a demonstration of how to cook meatballs and spaghetti sauce, which thoughtfully includes the recipe.

In the movie, as in real life, Charlie Scorsese and Catherine reminisce, among other things, about their marriage, life in the tenements on Elizabeth Street and the honeymoon they took 39 years after they were married. They speak in tandem, one picking up a sentence where the other leaves off, two people conducting one conversation.

"You should see what didn't get in," recalled Catherine. "All these stories," said Char-

"Marty would ask questions about stories we told him when he was a little boy," said Katie. "What a memory that boy

has!" said Charlie. "It's my favorite movie," said which Scorsese had worked on Martin.

Garrison Bight bridge in Key West. in time, a Hungarian newspaper Florida, and pawed along a cement reported. Erno Rubik, a Husgarian ledge, found a hidden envelope that scientist and now a millionaire, had carned her \$50,000 in gold and a been expected to unveil his new \$10,000 emerald. The find ended a game - in which children put totreasure hunt staged by Mel Fisher, the ocean salvor who in July found millions of dollars worth of gold and silver from the Spanish galleon Nuestra Señora de Atocha after a 16-year hunt. For seven days, hundreds of people combed Key West's streets, beaches and alleyways for clues that would lead to a solid gold bar from the Atocha and the emerald donated by a local jeweier. Deborah Benedict, of Key West, had to follow a trail of clues that took her all over the island and use a "Captain's Log" to interpret the clues, said Bleth McHaley, a spokeswoman for Fisher's company. Treasure Salvors. "This was intuition, this was special," Benedict said. "It was just perseverance. was nerve-wracking and it was

The pianist Vladinir Horowitz will play at La Scala in Milan on Nov. 17 and Nov. 24, his first appearances there in 50 years, according to opera house officials. Horowitz, born in Kiev, Russia, in 1904, made his American debut with the New York Philharmonic in 1928 and settled in the United States. Since 1953, he has given recitals only infrequently. The concerts will include works by Schumann, Schubert, Liszt and Chopin.

Max Schmeling, the former heavyweight boxing champion, turned 80 Saturday, "I never wanted to be the great Max," said the man who was hailed as the "boxing sensation of the century" when he knocked out the previously unbeaten Joe Louis in 1936. (Louis knocked out Schmeling in only 124 seconds in a 1938 rematch.) "I often think about my past, but I'm much more interested in the present and future," said Schmeling, who was born in 1905 in what was then the German province of Pomerania. He described himself as an optimist and said "I want to live to

as a homespun country lawyer was definitively smashed when two anthropologists found fine English china among his garbage. Charles Markman, a Northern Illinois University anthropology professor. and Floyd Mansberger were hired by the National Park Service to analyze the construction of the two-story Springfield home, where Lincoln lived as a lawyer beginning his political career. After removing the floorboards of the back porch they found a well filled with garbage, including chicken bones, eggshells, pottery and glassware. The two believe the litter found under the porch is Lincoln's because the porch was built after 1844, when the Lincolns moved in, and long after the previous owners had moved out.
